ARCORA chemie®

CONDOR®

SELF-POLISHING MOPPING SOLUTION

PROPERTIES

Strong cleaning mopping solution with conditioning ingredients.

- Creates a pleasant scent.
- Gentle on skin
- Creates a glossy effect without building multiple coats.
- Can be polished and compacted with a single disc machine or UHS machine.

APPLICATION AREAS

Suitable for PVC, rubber, stone, primed linoleum, as well as for wood and parquet floors. The product is preferably used on floors with lower traffic and strain or lower soiling and where a high standard of conditioning and shine is desired.

Not for use on floors with a factory-applied transparent PU coating.

APPLICATION

Use as first care:

Use CONDOR only on thoroughly cleaned surfaces. Apply the wipe care in thin and even layers with a clean Floor-Finish coating mop. Under normal conditions, approx. 30 minutes drying time between the individual layers is sufficient. Every layer has to dry thoroghly. In order to achieve an optimal result, you should at least apply 2 coats, maximum 3 coats CONDOR, within 24 hours. Walkable after approx. 2 hours. The dried care film can be compacted by machine polishing.

For use as a mopping solution:

For coated floors:	Dilute 20-40 ml to 8 liters water.
For uncoated floors:	Dilute 40-60 ml to 8 liters water.
For high-use floors:	Dilute 100-300 ml to 8 liters water.

INGREDIENTS

< 5 % non-ionic surfactants. Contains fragrances, LIMONENE. preservatives, BENZISOTHIAZOLINONE.
