PRO SATIN FINISH

LONG-LASTING FLOOR COATING WITH SATIN EFFECT

SATIN-EFFECT

PROPERTIES

PRO SATIN FINISH is a durable and dirt-resistant floor coating that is ideal for quickly achieving a perfect finish with minimum effort.

- Contains high performance acrylic polymers and creates stable cross-networking.
- Creates a long-lasting satin-matte finish (satin effect).
- Resistant to abrasion.

APPLICATION AREAS

Suitable for all absorbent and coatable floorings.

APPLICATION

Thoroughly remove old sealants, waxes, and coatings. The floor must be completely dry before the coating is applied. Apply the coating in thin, even layers with a clean professional flat mop or Floor-Finish coating mop. Under normal conditions, 20-30 minutes are sufficient drying time between individual coats. For optimal results, apply at least 2 coats, but no more than 3 coats of PRO SATIN FINISH within 24 hours.

Daily care:

1. Remove dirt with synthetic acrylic mop as needed.
2. Wipe as needed with GLOSS SYSTEM1 pH-neutral floor cleaner.

INGRIDIENTS

<5% anionic surfactants. Contains preservative.

CLASSIFIED UL
UL classified as slip-resistant
