

INTERMEDIATE CLEANER FOR RECOATING

SURF

PERIODIC FLOOR CLEANER FOR RECOATING

PROPERTIES

Ideal preparation for application of a new coating layer on existing coatings.

- The alkaline formula is effective against a wide variety of stubborn dirt
- Suitable for daily cleaning of heavily soiled areas
- No neutralization necessary
- Faster, simpler cleaning with less effort
- Low foaming, therefore suitable for use with a scrubbing machine
- Economically and effectively prepares floors for new coating
- Extends the stripping cycle so that fewer deep cleanings are necessary

APPLICATION AREAS

The cleaner for the removal of heavy dirt and for the preparation of the optimal re-coating. Thanks to its formulation, this product works without rinsing and is therefore chemically balanced (NO neutralization). Suitable for all washable surfaces. Faster, easier, labor-saving cleaning. Low foaming, therefore safe in the application with a scrubbing machine. Economical, prepares floors effectively for a new floor coating. Extends the peel cycle, thus less basic cleaning necessary.

APPLICATION

Preparation for re-coating as intermediate cleaner:

If refreshing with CITRUS 2IN1 is no longer possible, you should use SURF 1000 ml diluted to 16 liters of water for deep cleansing. Treat the coating surface with a red or blue pad, absorb liquid, wipe the floor with a suitable mop cover, allow to dry and then apply 1-2 coats of the recommended floor coating.

Daily cleaning for heavily soiled areas:

Normal soiling: Dilute 1000 ml to 128 liters of water.

Heavy soiling: Dilute 1000 ml to 64 liters of water

Very heavy soiling: Dilute 1000 ml to 20 liters of water.

INGREDIENTS:

<5% phosphates, nonionic surfactants. Further
Ingredients: alkalis, silicates, dyes, fragrances.

- **Type:** Synthetic detergents
- **Form:** Liquid
- **Fragrance:** Citrus
- **Color:** Blue
- **Foam formation:** Very low

Note:

Check material compatibility before applying. We accept no liability for damage caused by improper use.
