

COPPER-SYSTEMS

ARCORA® COPPER SYSTEMS

the solution for cement residue, lime, adhesive residues and silicones

ARCORA® COPPER SYSTEMS

APPLICATION OF ARCORA® COPPER PRODUCTS

The ARCORA® copper systems are suitable for the maintenance cleaning of any surfaces. Especially for uses in public institutions, hospitals, nursing homes, airports, shopping malls, hotels, restaurants and office buildings.

ATTENTION: Use always enough water at the usage of copper, because only in wet condition it leaves no scratches on surfaces. Check the surface for suitability at an unobtrusive point.

DO NOT USE copper system on teflon or teflon-like surfaces

The ARCORA® copper products can be reused several times.

It is recommended a washing temperature of 60 °C and the use of a laundry net. Softener and bleach should be avoided. Generally it should be washed sorted.

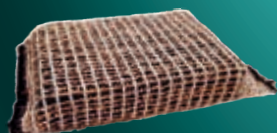

no softener
no bleach
wash separately
