

ORBITAL MACHINE

FEATURES

The orbital machine **HEAVY OR17** convinces with its combination of eccentric motion and rotary motion. The oscillating head is adaptable to all surfaces and enables working on uneven floors.

The robust construction with high own weight of 71.5 kg and the user friendliness characterize the professionalism of this machine. Simple handling guarantees fatigue-free working.

The special orbital technology significantly improves the mechanical cleaning power. This minimizes and eliminates other factors. As a result, you protect the environment and save time and money.

APPLICATION AREA

Thanks to orbital technology, coatings can be easily removed without chemicals.

The **HEAVY OR17** orbital machine is suitable for surface treatments such as polishing, crystallization, micro-grinding of marble, cement, stone, parquet, clay tiles and stoneware. It is also ideal for cleaning sensitive surfaces such as carpets.

The **HEAVY OR17** with the ARCORA® PU-PAD is highly recommended for intermediate floor cleaning.

Article No.: OR17SET

Units: 1 SET

The delivery scope includes liquid tank, pad holder and blocking system.

TECHNICAL DATA	
Working width	17"= 430 mm
Voltage/ Frequency	220-240 V/50 Hz
Power	1300 W
Brush-/ pad pressure	48,2 g/cm ²
Undercarriage height	285 mm
Rotation	1500 U/min
Sound level	< 54 dbA
Liquid tank	12 Liters
Cable length	12 m
Weight (without accessories)	71,5 kg
Dimensions (LxWxH)	1200x730x450 mm

ARCORA® TILTING SYSTEM

For maximum pressure on the ground. With lifted wheels, the **HEAVY OR17** enables best cleaning results even in narrow spaces and corners.

Head locking system included in delivery!
