PROTECTIVE SUIT TYPE 5/6

The protective suit type 5/6 of protective clothing category III offers protection when working in agriculture, environmental remediation, automotive industry, activities with paints and varnishes, chemical industry, construction industry, industrial cleaning, mineral fibre work, waste disposal, asbestos disposal, pharmaceutical industry, food industry, decontamination work, paint production, veterinary medicine.

Due to continuous fibres, which are spun with high density, the coverall offers a high barrier against fine fibres and particles and thus protects against external dangers. The material and structure allow air to pass through to the outside.

The protective jumpsuit is worn over regular work clothing. Thus the suit has a generous cut, which enables a lot of freedom of movement. An ergonomic cut with excellent wearability.
In addition, the suit is equipped with a 2-way-zipper with cover, as well as elastic incorporated rubber bands on sleeves, waist and ankles for a perfect fit.

size	article-no.	units

DISPENSER SYSTEMS AND STANDS

MOBILE METAL STAND WITH SENSOR DISPENSER

For safe hand hygiene while passing by.

In order to keep hands sterile and protect people from infections, ARCORA® Sensor disinfectant dispenser is perfect - contact-free, fast and reliable.

This sensor-controlled dispenser enables contactless disinfectant dispensing and thus prevents direct contact with the dispenser. Its simple design makes it suitable not only for healthcare facilities, medical rooms and offices, but also for reception areas of stores, fitness studios, hotels and restaurants. It enables an exactly dosed hand disinfection with liquid disinfectant. The integrated empty bottle has a filling volume of 1000 ml and enables at least 1500 usages without refilling by dispensing 0.3 ml or 0.6 ml per application.
The lockable front prevents theft as well as manipulation of the disinfectant.
The mobile stand is equipped with a stable stand element and a drip protection prevents contamination on the floor. The dispenser can be set up at any desired location.

- non-contact disinfectant dispenser with sensor function (1000 ml)
- maximum hygiene due to contactless disinfectant removal
- refillable plastic container, max. filling quantity 1000 ml
- filling level is clearly visible from outside
- 2 spray levels: 0.3 ml or 0.6 ml per application
- quick and easy to set up, with lockable front
- battery operation with 8 x AA batteries (batteries not included)
- material/Color Housing: ABS plastic, black/white
- material stand: black, coated steel
- weight: 9.2 kg (complete with stand and dispenser)
- with ARCORA® logo engraving
- sensor dispenser also available without stand

AIRLAID-DISPOSABLE TOWELS

Absorbent Airlaid disposable towels for single use made of environmentally friendly cellulose airlaid non-woven fabric from ARCORA.

It doesn't matter if it's for washing hair, drying hands or face, the use of towel is a regular routine. In hairdressing or beauty salons, a large quantity of dirty and used towels comes together daily. In addition, classic towels are a collection point for bacteria and germs.

Enough of this now!

The lint-free Airlaid disposable towels, which can be easily disposed are ideal for use in salons, hotels or fitness centres and thus replace conventional towels.
An enormous absorbency, **400 times** its own weight, characterizes the antibacterial and hygienic Airlaid disposable towels.

- Hygienic protection against germs and bacteria
- Comfort and a safe feeling with the customer
- High absorbency
- Lint-free and efficient
- Soft and smooth
- Distinguishes itself from similar products by its weight **(55 g)**
- Material: 60 % cellulose, 30 % cotton, 10 % tree resin

X-LINE WIPES MOISTENING SYSTEM

WET WIPE DISPENSER INCLUDING CLOTH ROLL AS SET

With absorbent, tear-resistant and lint-free cloth roll

dispenser size	article-no.	units
19,5x19,5x22 cm	01109	4 sets

The X-LINE WIPES MOISTURIZING SYSTEM is a refillable dispensing system for soaking wipes with disinfectants or cleaning agents.

Ideal for rapid and easy disinfection or cleaning wipe-resistant surfaces in medical facilities, schools, kindergartens, retirement homes, fitness centers, as well as in food processing, industrial and public facilities. Especially for areas that need to be disinfected or cleaned several times a day. Also ideally suited for hand disinfection.

The resealable dispenser bucket can be used universally and allows safe and easy removal. The closed system protects the liquid from contamination and evaporation.

- for all wipe-resistant surfaces
- easy handling
- universally applicable
- refillable system
- safe and user-friendly system
- economical use of wipes and application solution
- durability after impregnation - 28 days

Included in delivery with article no. 01109:
1 wet wipe dispenser volume 5 litres
1 white cover and 1 cloth roll with 350 sheets

PREPARATION

1. Put on gloves to protect the cloth roll from contamination.
2. Remove the cloth roll with gloves from ist package.
3. Place the cloth roll in and pull out the first cloth.
4. Dose approx. 2.5-3 litres of ready-to-use application liquid in the desired concentration or use ready-to-use surface disinfectant.
   It is recommended to use distilled or demineralized water for dilution to prevent streaks on the surface.
5. Fill in disinfectant solution in the desired application concentration.
6. Insert the first cloth through the cover opening and close the dispenser with the cover
   Then wait 30-60 minutes so that the wipes can be soaked.
7. Mark the security label and stick it on to note the expiry date.
8. The wipes can be used for 28 days after soaking.

APPLICATION

Wipe objects and surfaces carefully until completely wetted.
Pay attention to the disinfectant's exposure time and concentration.

REFILLING

1. Put on gloves to protect the cloth roll from contamination.
2. Before refilling, dispose cloth and liquid residues.
3. Clean new or empty dispenser with alcoholic detergent.
4. Disinfect the dispenser with a cloth soaked in disinfectant for 1 minute.
5. Allow all parts to dry thoroughly and refill..
