SPRAY EXTRACTION MACHINE

aniko®30

SPRAY EXTRACTION MACHINE

PROPERTIES

ANIKO30 is a spray extraction machine for the professional cleaning of small carpet and hard floor surfaces. Despite its small dimensions, it is suitable for professional use and intensive use. Thanks to the high suction power of the ANIKO30, as much dirt as possible is extracted from the floor and very fast drying is possible. Its small working width of only 27 cm allows cleaning in narrow spaces.

Other properties

- incl. suction lance for carpet and hard floors
- robust construction, tank made of polyethylene with high tightness
- simple use
- Ideal for professional cleaning work in the building cleaning industry
- Coupling made of brass, suction motor with thermal protection against overloading
- Height-adjustable handle for better ergonomic

APPLICATION AREA

Suitable for use in cleaning companies, hotels, restaurants, pubs, bars, offices, banks, carpet shops, trains, buses, airplanes, cinemas, theatres, ships, hospitals, sanatoriums as well as in public facilities such as sports halls, schools, universities, etc.
