

ARCORA® GROUP

PROTECTIVE MASKS

MASKS

SILVER ION TECHNOLOGY MASK SF30

Comfortable mouth-nose covering with integrated silver ions

Every day we are surrounded by microorganisms and some of them can lead to serious diseases. ARCORA® silver ion masks protect against bacteria, germs, viruses and pollen, which are rendered harmless before each inhalation and with each exhalation. Within a short time (max. 1 hour), up to 99.9 percent of germs are eliminated. Silver Nano technology prevents the survival and reproduction of bacteria, due to the germicidal characteristics of silver. The masks are especially suitable for asthmatics, allergy sufferers and people with weakened immune systems.

Silver ion masks consist of 4 protective layers and are effective against microorganisms for 30 days without washing. **After 30 days, the masks can be washed at 30-40°C and used again for the next 30 days.**

Antimicrobial nanosilver:
The particles, which are less than 100 nm in size, emit silver ions that prevent the growth of bacteria, viruses, etc. by inhibiting their metabolism. On the one hand, the nanosilver can attach to the outside of the cell and damage it, and on the other hand, it can penetrate into the cell. Inside the cell, they work like a depot from which silver ions are continuously released over a longer period of time.

- very high wearing comfort: Adjustable ear loops and extra soft fabric
- high breathability
- reusable several times, as washable
- 4-layer weave technology
- **30 days full protection without washing**
- nanoparticle technology
- filter performance 99.9 percent
- **individually packaged in resealable protective aluminum foil**
- material is treated with approved biocidal products

Adjustable ear loops thanks to cord stopper

Spacer for easier breathing
The silicone spacer ensures that the mask no longer rests directly on the mouth. In addition to better breathing, the spacer also provides protection for make-up. Suitable for all types of masks.

AVAILABLE ON REQUEST ONLY!!!

MASKS | FACE SHIELD

DISPOSABLE MASKS

With integrated metal clip, which adapts to the shape of the nose.
