

FINALIN

INTENSIVE-RINSE AID FOR DISHWASHERS

PROPERTIES

Reinforced acid rinse aid in concentrated form with foam dampening for machine rinsing in automatic dishwashers. Makes the dishes dry faster and prevents water spots from remaining. For pearl- and streak-free quick drying and to protect against limescale deposits. The pronounced wetting effect of the rinse aid ensures that the water runs off the dishes perfectly and accelerates the automatic drying process. The rinse aid ensures a brilliant shine on glasses and dishes in the dishwasher.

APPLICATION AREAS

For the rinse cycle in commercial automatic dishwashers with automatic liquid dosing. Especially for the catering trade and large kitchens with all water hardnesses. Adjustment for all wash ware.

APPLICATION

Observe the machine instructions. Always dose automatically with suitable dosing equipment. Not suitable for manual dosing!

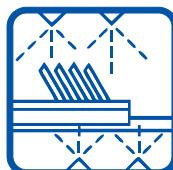

Application concentration depending on water hardness and cleaner concentration from 0.1 g/litre wash liquor.

The setting must be sufficient to ensure that no detergent residues remain on the wash ware. (approx. 20-30 % of the machine detergent dosage).

Recommended: 0.2-4 g/litre rinsing liquor

INGRIDIENTS

5-15 % non-ionic surfactants. Other ingredients: alcohols, citric acid, solubilisers.

pH-value (at 20°C)

2,5
