

# CARBON NEUTRAL COMPANY

ARCORA® International GmbH supports the following UN goals for sustainable development:

## ARCORA® International GmbH

Participant ID: DE-2873-0520

Valid until: 20.05.2022

This certificate guarantees that the reported quantity of 589 tons CO<sub>2</sub> has been calculated according to Greenhouse Gas Protocol Standard. The resulting emissions have been saved in Gold Standard tested climate projects.

ARCORA® International GmbH has acquired shares (certificates) in climate protection projects corresponding to the calculated volume of CO<sub>2</sub> and therefore plays a transparent part in the realisation of the projects. This ensures that the company compensates for its own CO<sub>2</sub> emissions, and thus scales back the rise in global warming.

The projects have been certified, and the issue and closure of the certificates is registered transparently.

ARCORA® International GmbH is therefore a voluntary participant in emissions trading, and thus makes a contribution to maintaining a viable environment by reducing the emissions of greenhouse gases. The holder of this certificate makes a sustainable contribution to the commitment to tackle global warming.
