ALSO IN FUTURE!

ARCORA®  
PU-PAD

## Content

- Carbon neutrality:  
ARCORA® GROUP und ARCORA® PU-PAD
- ARCORA® Foundation Senegal
- New Top Products

## Dear business partners,

Life has started to return: incidences are decreasing and loosening is leading to more normality in our everyday life again. We hope that you, dear customers, have managed the last few months well and that you have survived the more challenging times well so far.

We are pleased to keep you informed about what has been going on at ARCORA® GROUP in the last few months. This update presents you the latest products, developments and activities of the ARCORA® GROUP.

But, before it starts...

**Your feedback is valuable to us. Only by receiving your feedback we can find out what can be improved. We therefore kindly ask you for any feedback you may have - on any topic, including compliments, suggestions for improvement or criticism. We would be pleased to receive your completed questionnaire:**

**[Customerservice@arcora.de](mailto:Customerservice@arcora.de)**

**[Please share your feedback with us here >>](#)**

**ARCORA FUTURE****HOMEPAGE- SOON ONLINE**

For a liveable environment, also in the future! We would like to contribute to this with our business activities. We will always do our best to act with responsibility for the people and the environment. Sustainable optimization of processes and manufacturing of products with a focus on economic, environmental and social issues as well as encouraging and supporting social projects - what ARCORA® FUTURE is all about.

Soon you will discover an ARCORA® FUTURE button on our homepage, which will then forward you to our new additional homepage. There you will be able to get an overview of our sustainable and social activities. Our latest sustainable products will be presented there as well as our social projects, such as the humanitarian project in Senegal. We are looking forward to present you the newest homepage soon, to be able to give you an impression of our sustainability concept.

## Carbon Neutral Company

Since ARCORA® foundation, we have been very focused on sustainability. With all our products and processes we focus not to ignore the economic, especially the social and ecological aspects and to always act future-oriented.

ARCORA® GROUP has been certified as a carbon-neutral company in April this year so that we as a company can support climate protection and thus work against global warming by compensating for CO2 emissions. We strongly support the sustainable development of our environment for the benefit of future generations. For this reason, we are especially excited that we have been certified as a carbon-neutral company.

Through this project, we not only support the compensation of all emissions produced by our company, but also some UN sustainability goals:

The ARCORA® GROUP is thereby supporting climate protection projects in Zimbabwe, Taiwan, India and Turkey. For more information, [click here >>](#)

## Carbon Neutral Product - ARCORA® PU-PAD

Now not only our company is carbon neutral, but also all our PU-PAD products. Thus, the PU pad is not only 100% environmentally friendly due to its recycled material, but also climate neutral due to CO2 compensation. With the PU-PAD, ARCORA® supports the following UN climate goals:

- Clean water and health care services
- Affordable and safe energy
- Humane work and growing economy
- Climate protection measures

## Update: ARCORA® Foundation Senegal

As you may already know, last year we established the ARCORA® Foundation, which supports social projects. One important project that is especially important to us is the humanitarian project in Gassamberi, Senegal. There, the ARCORA® Foundation is working to fundamentally improve the living situation of the locals.

The first positive achievements are visible. Recently, the village's own market hall has been completed. Here all residents of Gassamberi, as well as the surrounding towns, can sell their goods.

The next step is to connect a slaughterhouse to the market hall to ensure hygienic slaughtering and storage of meat. It is a great pleasure to see the beaming faces that radiate satisfaction and gratitude. Further projects are being planned and will be realized as soon as possible.

If you would also like to put a smile on people's faces in Gassamberi, please feel free to support us in the form of donations of any kind:

Do you have pieces of clothes that you no longer need or toys that your children no longer play with? We will collect donations like this at the ARCORA® GROUP in Aschheim and send them with a container to Senegal. Please do not hesitate to contact us at: [info@arcora.de](mailto:info@arcora.de)

## ARCORA® Chemicals MADE IN GERMANY

For some time now, we have been in the process of improving and expanding our cleaning product range. There are new formulations and products being developed that will definitely meet, any expectations for optimal cleaning performance.

Among many other products, we have introduced several new top products and improved formulations, especially in the **READY-TO-USE** range. But also other cleaning and care products have been and are partly still being adapted and optimized with new formulations.

### READY-TO-USE WITH 500 ml SPRAY BOTTLE

#### GRILL-CLEAN RTU

##### **READY-TO-USE HIGH ALKALINE GRILL CLEANER WITH MINIMAL SMELL**

Ready-to-use, highly alkaline grill and oven cleaner for intense cleaning of alkali-resistant surfaces.

- Does not have the typical smell of a grill cleaner!
- Removes heavy soiling such as grease, oil and fat incrustations as well as grill residues.
- For the intensive cleaning of alkali-resistant surfaces, especially for ovens, grills etc.

containers	article-no.	units
500 ml spray bottle	01061	20x500 ml
10 l canister	01017	1x10 l

#### FAT-CLEAN RTU

##### **READY-TO-USE POWERFUL KITCHEN CLEANER**

The ready-to-use kitchen cleaner powerfully cleans grease, protein and oil contaminated alkali-resistant surfaces of all kinds.

- Ideal for cleaning heavily grease-contaminated surfaces
- Optimal for use in food processing factories
- For the thorough and daily cleaning

containers	article-no.	units
