Wash according to type

SPECIFICATIONS

Yarn blend: 70% polyester, 30% polyamide
Fabric backing: Coated and fixed
Bag material: 100% Polyester
Color: WHITE-DARK BLUE
Shrinkage value: 2-3%
Washing label: Embroidery label in WHITE, printed on 2 sides

Measures: 40 cm 50 cm
Weight: approx. 81 g approx. 104 g

Units: 75 pcs 50 pcs
Art.-No.: PMF40WB PMF50WB

SPECIAL FEATURES

The material of the bags is made of 100% woven polyester and reinforced with a sponge insert to support the sliding of the holder.

The special polyamide bristle strips not only provide excellent gliding properties, but also, due to the generating mechanics, optimal dirt loosening power and pore-deep cleaning.

PROPERTIES

The bristle microfiber cover has excellent gliding properties thanks to the polyamide bristle strips and is ideal against stubborn dirt. At the same time the dirt and water absorption are optimal.

- High water absorption and water depot effect
- High quality plush microfiber
- Very good gliding properties for fatigue-free work
- Tear-resistant and water-permeable polyester pockets
- Light scrubbing action for dirt and stain removal

APPLICATION

Applicable both dry and wet on smooth, coated and uncoated floor coverings.

AREA OF APPLICATION

For maintenance cleaning, basic cleaning as well as wet and dry cleaning of any surfaces, such as elastic coverings, hard coverings, porcelain stoneware, stone floors, tiles, laminate floors, sealed parquet (Use only damp or dry) and ideally suited for smooth and porous floor coverings. Particularly suitable for use in industry, production, healthcare, clinics, retirement and nursing homes and public facilities and building cleaning.

WASHING RECOMMENDATION

A washing temperature of 60 °C is recommended. A maximum washing temperature of 90 °C should not be exceeded. The use of fabric softeners and bleaching agents should be avoided. In general, it is recommended to wash only single types of fabrics. When drying, 80 °C should not be exceeded.
