

PAD

HIGH-GLOSS

LIGHT BROWN ULTRA-HIGHSPEED PAD

FEATURES

The **HIGH-GLOSS-PAD** is very hard and aggressive against dirt due to its high hair content and brings back high gloss. Suitable for polishing medium-hard and hard care films.

APPLICATION

In combination with a single disc machine.

The rotation speed range of the polish machine is between 800 and 3000 rpm.

APPLICATION AREA

For intermediate cleaning of various surfaces such as elastic coverings, stone floors, porcelain stoneware and wooden floors.
