

ECO GLS

GLASS CLEANER FOR DISHWASHER

PROPERTIES

Liquid machine dishwashing detergent for glass washing machines. Concentrated and chlorine-free glasswashing detergent with increased cleaning performance especially for commercial glasswashers with automatic liquid dosing. Also removes incrustations and very greasy soiling, even with short machine running times. Suitable for all water hardnesses. Observe machine instructions. Always dose automatically with suitable Dose automatically with suitable dosing devices, not suitable for manual dosing!

APPLICATION AREAS

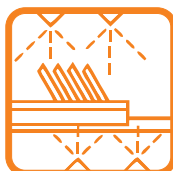

For glasswashers in the catering trade and large kitchens. Suitable for wash ware made of glass, ceramics, porcelain, steel, silver. For best results, we recommend a rinse aid such as ECO SAUER or FINALIN.

APPLICATION

Application concentration depending on water hardness from 2 g/l rinsing liquor. For recommended dosing specifications, see dosing and conductivity table. The dosing system should be adjusted by a trained technician.

INGRIDIENTS

25-30 % phosphates, silicates, potassium hydroxide

UN 1814
