## WHY ARCORA® PU-PAD? *Light*

The 100 % environmentally friendly pad with waterdrop system (water drop perforation) is the ideal pad for maintenance cleaning, especially with smaller scrubber drier machines.

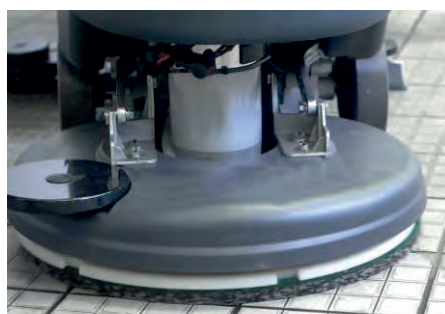

### The ARCORA® PU-PAD Light...

- enables an area performance for maintenance cleaning of up to **80.000 m²**.
- is particularly suitable for **smaller scrubber drier machines**.
- has a special **robustness and durability** due to the composition of polyester, polyether and a fixation of polyurethane.
- is applicable on all types of water resistant elastic and hard floor coverings, even on porcelain stoneware floors and safety floors up to R13.
- has a **higher water absorption** than conventional pads.
- is **100% environmentally friendly** due to the exclusive use of recycled products.

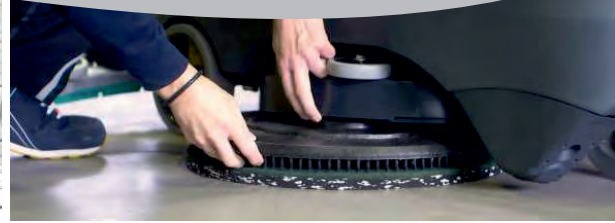

### The ARCORA® PU-PAD Light...

- ensures a lower pressure specially on small-battery scrubber-drier machines with lower Ah battery, e.g. 56 Ah, and enables longer running time.
- supports the running time of lithium batteries.
- reduces the pressure on motors and batteries which enables a higher m² performance.
- leads to a lower pressure on small cable scrubber-drier motors.

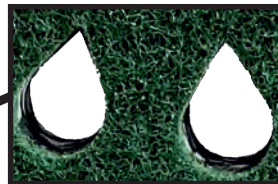

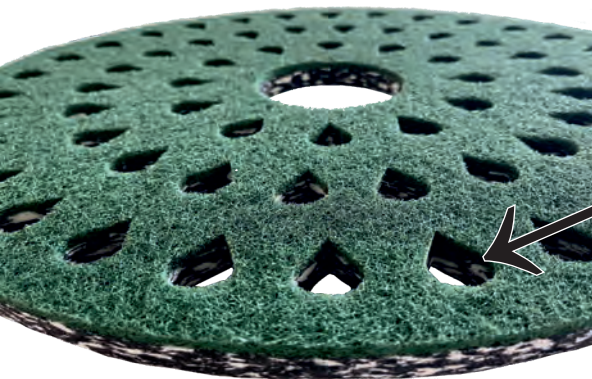

# PU-PAD *Light*

## What makes the ARCORA® PU-PAD Light special?

- Due to the applied water drop perforation, the mechanic is additionally supported by the plus/minus effect without damaging the floor → Gentle cleaning
- The perforation technique enables better water distribution and dirt absorption
- To protect the environment, the water drop system enables to reduce the amount of water by the application
- Gliding the machine over the floor is much easier with the PU PAD Light due to the die-cutting technology

## Waterdrop System

### PLUS-MINUS effect

- Better glide on the floor & better dirt absorption
- Better water distribution & water saving

## Application / Application area

For maintenance cleaning of any floor coverings, e.g. tiles, stone floors, porcelain stoneware, concrete floors to vinyl floors, PVC, linoleum. Particularly suitable for use in public facilities, airports, shopping centres, hotels, restaurants, pubs and office buildings. The pad side is used for cleaning all elastic coverings and hard floor surfaces. For more persistent soiling, the pad can be turned over and the pad back (green) used like a normal cleaning pad.

## 100 % environmentally friendly

The ARCORA® PU-PAD Light is 100% environmentally friendly due to the use of recycled products. Furthermore, the pad is certified as climate neutral. The amount of CO<sub>2</sub> produced is compensated by climate protection projects and thus the increase in global warming is curbed.

TOWARDS A SUSTAINABLE AND  
ENVIRONMENT FRIENDLY WORLD
