

THE MICROFIBRE YARN COVER WITH HIGH FILAMENT CONTENT!

MADE IN EEC

SPECIFICATIONS

Yarn mixture:	100% polyester, with high filament content	
Yarn colour:	GREEN-WHITE	
Cover sheet:	50% fine cotton and 50% polyester	
Edging tape:	100% polyester, WHITE	
Bag material:	100% polyester	
Shrinkage value:	2-3%	
Washing label:	Embroidery label in WHITE, embroidered on 2 sides	
4-colour coding:	BLUE, GREEN, YELLOW, RED	

Measurements:	40 cm	50 cm
Weight:	ca. 130 g	ca. 160 g

UNITS:	75 pcs.	50 pcs.
article-no.:	MED40GR	MED50GR

Special
Cover 50/50

4-colour coding

**Bag material made of
100% polyester with inserts
tear resistant & water permeable**

Do not use fabric softener
Wash according to type

SPECIAL FEATURES

The top sheet is made of 50% fine cotton and 50% polyester.
To enable optimum absorbency of the cover, this mixing ratio is recommended.
The bags' material is made of 100% woven polyester and reinforced with a sponge insert to help the holder slide.
The high-quality microfibre content and the composition of the top sheet guarantee perfect dirt and water absorption as well as optimal gliding properties.
Due to the **high proportion of filaments**, a very high area performance as well as an optimal cross-linking of cleaning and disinfecting agents is achieved.

PROPERTIES

The **microfibre yarn cover** offers an above-average service life due to its special tufting process, whereby the loops are firmly anchored in the cover sheet. The mop cover convinces with excellent gliding properties and high dirt and water absorption.

- **High surface performance and excellent cross-linking** of cleaning and disinfecting agents thanks to the high proportion of filaments --> Continuous fibres
- Ideal dirt and water absorption
- Very good gliding properties for fatigue-free work
- Tear-resistant and water-permeable polyester pockets
- Long service life due to high-quality manufacturing process

APPLICATION

Can be used both dry and wet on smooth, coated and uncoated floor coverings.

APPLICATION AREA

For maintenance cleaning, as well as for wet and dry cleaning of any surfaces, such as elastic coverings, hard coverings, porcelain stoneware, stone floors, tiles, laminate floors and ideally suited for smooth and porous floor coverings. Particularly suitable for use in health care, clinics, retirement and nursing homes as well as public facilities and building cleaning.

WASHING RECOMMENDATION

A washing temperature of 60 °C is recommended. A maximum washing temperature of 95 °C should not be exceeded. The use of fabric softeners and bleaching agents should be avoided. In general, it is recommended to wash only unmixed fabrics. Do not exceed 80 °C when drying.
