

MICROFIBER CLOTH

GLASS-SHINE GLASSES POLISHING CLOTH

MICROFIBER CLOTH

SPEZIFIKATIONEN

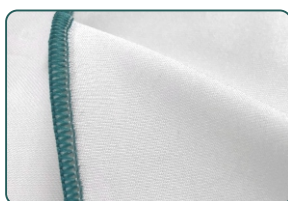

yarn blend:	100% microfiber
weight:	ca. 64 g/cloth
size:	50 x 80 cm
units:	1 pieces

PROPERTIES

This microfibre cloth is ideal for polishing and cleaning glasses and metallic objects.

Further properties:

- Cleans without lint and streaks
- Leaves a shiny, clean surface, no streaks at all
- Maximum absorption force of dirt and water

APPLICATION

After washing with hot water and a little detergent, rinse the item thoroughly. Then dry with a glass polishing cloth and polish.

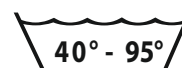

Caution: Never hold the glass by the base plate when the glass cup is polished (broken stem).

APPLICATION AREAS

Ideal for use in hotels, restaurants and bars (HoReCa). Also ideal for crockery and cutlery.

WASHING RECOMMENDATION

A washing temperature of 60 °C is recommended. A maximum washing temperature of 95 °C should not be exceeded. The use of fabric softeners and bleaching agents should be avoided. In general, it is recommended to wash only one type.

No fabric softener
and use bleaching agents
Washing by type
