Measurements:	40 cm	50 cm
Weight:	ca. 160 g	ca. 200 g

UNITS:	75 pcs.	50 pcs.
article-no.:	EFM40	EFM50

SPECIAL FEATURES

The top sheet is made of 50% fine cotton and 50% polyester. This mixing ratio is recommended to enable optimal absorbency of the cover. Many market competitors produce this cover sheet from 100% polyester. The material of the bags is made of 100% woven polyester and reinforced with a sponge insert to support the sliding of the holder.

PROPERTIES

The **high-quality cotton cover** offers above-average durability thanks to its special tufting process. The loops are firmly anchored in the cover sheet, the high-quality cotton cover offers above-average durability. The even distribution of the loops over the entire surface enables high dirt and water absorption as well as ideal gliding properties.

- Optimal dirt and water absorption
- High area output thanks to higher grammage
- Very good gliding properties for fatigue-free work
- Tear-resistant and water-permeable polyester pockets
- Long service life due to high-quality manufacturing process

APPLICATION

Can be used both dry and wet on smooth, coated and uncoated floor coverings.

APPLICATION AREA

For maintenance cleaning, basic cleaning as well as wet and dry cleaning of any surfaces, such as elastic coverings, hard coverings, porcelain stoneware, stone floors, tiles, laminate floors and ideally suited for smooth floor coverings. Particularly suitable for use in industry, production, supermarkets as well as public facilities, building cleaning and health care.

WASHING RECOMMENDATION

It is advisable to wash the mop cover before use. A washing temperature of 60 °C is recommended. A maximum washing temperature of 95 °C should not be exceeded. The use of fabric softeners and bleaching agents should be avoided. In general, it is recommended to wash only clean fabrics. Do not exceed 80 °C when drying.
