- New structure of the ARCORA® homepage
- Fairs 2022
- RCS Certification
- New Top Products

## Dear business partners,

There has been a lot going on at ARCORA® again, so we would like to inform you about our latest products and developments. We would be very pleased if you would take the time to look at our issue.

**We wish you a wonderful summertime and stay healthy!** ☀

You're ARCORA® Team

## NEW STRUCTURE OF OUR HOMEPAGE

The start page of the ARCORA® homepage has recently been redesigned. We have extended our product portfolio with the HOME-LINE department to reach all households with professional cleaning products. The **ARCORA® HOME-LINE** will be marketed in supermarkets and will provide affordable and efficient products to the end user. This means that in the future there will be three main categories on the home page. The previously known ARCORA homepage **ARCORA® PROFESSIONAL-LINE**, the new division **ARCORA® HOME-LINE** and the homepage **ARCORA® FUTURE**, which was published last year.

## RCS CERTIFIED

The RCS Standard (Recycled Claim Standard) is used for traceability of recycled raw materials within a supply chain. This ensures transparent evaluation and verification of the accuracy of information on the content of recycled materials in a product. Our plant in Turkey obtained this certificate this year. This confirms that our cotton and blended yarn covers are made from certain proportions of recycled materials.

Product	Percentage of recycled materials
Universal BW-Mopp 40 cm	55 %
Universal BW-Mopp 50 cm	61 %
Multi-Mopp 40 cm	60 %
Multi-Mopp 50 cm	64 %
First Mopp 40 cm	63 %
First Mopp 50 cm	66 %
Hospital Quattro Mopp 40 cm	45 %
Hospital Quattro Mopp 50 cm	49 %
Hospital Quattro Plus Mopp 40 cm	21 %
Hospital Quattro Plus Mopp 50 cm	24 %
Hospital Hygiene Mopp 40 cm	34 %
Hospital Hygiene Mopp 50 cm	38 %
Hospital Hygiene Plus 40 cm	17 %
Hospital Hygiene Plus 50 cm	21 %

## FAIRS 2022

We are very pleased that after a longer break due to corona, trade fairs and thus discussions and contacts can take place in person again. Besides the ANFAS Hotel Equipment Fair in Antalya in January and the Altenpflege Leitmesse in Essen in April, INTERCLEAN in Amsterdam took place again this year. Furthermore, the career fair in Sigmaringen and the CLEAN AURASIA in Istanbul are scheduled for this year.

### ANFAS HOTEL EQUIPMENT SHOW ANTALYA

## ALTENPFLEGE LEITMESSE ESSEN

## INTERCLEAN AMSTERDAM

INTERCLEAN is the largest international trade fair for the cleaning industry. Approx. 26,000 visitors from 125 countries took the opportunity in May this year, to learn more about innovations and trends in the field of professional cleaning. Among the almost 670 exhibitors, we were also part of the party and presented our top innovations and new products, such as our ARCORA PU-PAD LIGHT or the ECOBLACK Technology with cleaning carts and vacuum cleaners and many other exciting solutions. We are especially proud that we won the Innovation Award in the category Workforce and Ergonomics with the ARCORA PU-PAD LIGHT. All in all, the fair was very successful with exciting exchange of experience and information, which could finally take place in person again, as well as very many visitors who showed interest in our products.

We would like to take this opportunity to thank the organizers and all visitors for these successful and exciting days.

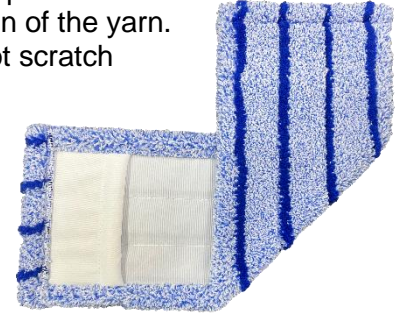

## NEW TOP PRODUCTS

### RUNNER BLUE 2.0

The RUNNER BLUE 2.0, the sprinter among the mop covers, convinces thanks to the tightly woven microfiber yarn with greatly improved mechanics on the floor and optimal cross-linking of the cleaning solution. The high-quality woven microfiber enables excellent dirt and water absorption as well as higher surface performance thanks to the composition of the yarn. The new PA(polyamide) lightweight bristles, which do not scratch the floor, crown the mop cover a smooth-running sensation that ensures ergonomic and fatigue-free cleaning and working. The mop cover is the trend-setter for the cleaning industry. Fast and fatigue-free to an optimal cleaning result, that succeeds with the RUNNER BLUE 2.0.

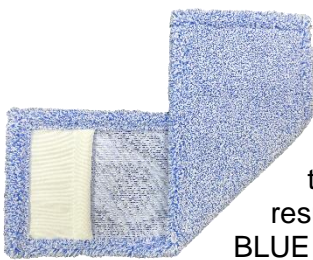

- Smooth running sensation
- Improved mechanics on the floor
- Optimal cross-linking of the cleaning solution
- Ideally suited for preparation
- Excellent dirt and water absorption
- Higher area performance
- Long service life due to high quality manufacturing process

### MICRO BLUE 2.0

The MICRO BLUE 2.0 convinces thanks to the tightly woven microfiber yarn with greatly improved mechanics on the floor and an optimal cross-linking of the cleaning solution. The high-quality woven microfiber enables excellent dirt and water absorption as well as higher surface performance thanks to the composition of the yarn. For an excellent cleaning result thanks to very high dirt absorption, that's what MICRO BLUE 2.0 stands for.

- Improved mechanics on the floor
- Optimal cross-linking of the cleaning solution
- Ideally suited for preparation
- Excellent, high dirt and water absorption
- Higher area performance
- Long service life due to high-quality manufacturing process

## SUPER-LINE XL

The SUPER-LINE XL Microfiber Cloth can be used on all surfaces and is ideal for daily maintenance cleaning. Thanks to the modern hot-cutting technology (Ultra Sonic) the cloth has a particularly long service life.

- Very high water absorption
- Universally applicable
- Clean, streak-free surfaces
- Unbeatable price-performance ratio
- Lint-free & dimensionally stable

## SWEEPING SET KARISMA OVAL LANGARM

The sweeping set allows you to clean floors without having to bend down. The fine bristles pick up the finest dust and dirt. A practical holder on the handle of the plastic container ensures space-saving and easy storage of the sweeping set after use. With integrated eyelet for hanging.

## SWEEPING SET DELUXE LANGARM

With this practical sweeping set dirt is conveniently removed and constant bending is no longer necessary. The dustpan opens on contact with the ground and closes when lifted, so that the dirt remains safely inside. After use, the sweeping set can be easily stored in a space-saving manner thanks to the holder on the handle. With integrated eyelet for hanging.

## ECOBLOCK TECHNOLOGY

ARCORA's ECOBLACK TECHNOLOGY processes recycled materials into robust and durable plastic. This saves a large amount of CO2 compared to manufacturing processes with new/original materials. Thus, the ECOBLACK series consists of 97% recycled materials. The cleaning carts convince with robust and user-friendly design.

# ECO BLACK 550

Item no.: EB550RC  
PU: 1 Set

- Black, sturdy recycled plastic frame.
- 360 ° rotating, 4 smooth-running wheels
- 2 color separated 20 liter buckets in black with handle in blue and red
- 4 x 6 liter buckets in black with handle in blue, green, yellow, red stowed in cabinet with manually lockable lid
- Recycling plastic press in black
- 1 x plastic tub in black
- 1 x plastic box in black without lid
- With plastic doors, manually lockable
- Waste/laundry bag with lid incl. tray for work plan
- Plastic tray in black underneath the waste/laundry bag
- Side storage for mop holder

**Gross weight: 25,00 kg**  
**Net weight: 22,50 kg**

# ECO BLACK S9Q

Item no.: EBS9Q  
PU: 1 Set

This dry vacuum cleaner, made from recycled materials, is specially designed for professional use and application in commercial cleaning.

- Sturdy construction, tilt resistant
- Made from recycled materials from battery cases
- Easy handling
- Accessory storage on the device
- Parking position for floor nozzle
- 5-filtered → long life of the motor
- Includes floor nozzle, crevice nozzle short & long, upholstery nozzle, Cartridge filter, suction tube, suction hose and fleece filter bag.

<b>Power supply voltage</b>	230 V / 50 Hz
<b>Max. Power</b>	900 W
<b>Water column</b>	2500 mm H <sub>2</sub> O
<b>Air conveying</b>	53 l/s
<b>Working width</b>	275 mm
<b>Noise level</b>	68 dB
<b>Volume</b>	7 Liter
<b>Cable length</b>	10 m
<b>Weight</b>	7 kg
<b>Dimensions</b>	33x40x40 cm

Included accessories

## SCRUBBER DRYERS

The hand-held scrubber-driers are ideal for basic and maintenance cleaning, especially of high-traffic areas. The 510BM and 520BM are characterized by flexibility, user-friendliness and outstanding cleaning performance. Thanks to the large brush diameter, large areas are reliably cleaned quickly and without residues.

### 510BM SCRUBBER DRYER MACHINE

### 520BM SCRUBBER DRYER MACHINE

<b>Brush diameter</b>	510 mm
<b>Suction width</b>	760 mm
<b>Battery</b>	2 x DC12V 100 AH
<b>Brush motor</b>	550 W
<b>Area performance</b>	2000 m²/h
<b>Water tank 510BM</b>	47 Lt (fresh)-50 Lt (dirty)
<b>520BM</b>	50 Lt (fresh)-55 Lt (dirty)
<b>Revolutions brush</b>	150 rpm
<b>Brush pressure</b>	30 kg
<b>Max. Negative pressure</b>	180 mbar
<b>Working time</b>	3 h
<b>Weight (Net) 510BM</b>	75 kg / 135 kg (with Battery)
<b>520BM</b>	85 kg / 145 kg (with Battery)
