Measurements: 40 cm **Weight:** ca. 80 g

UNITS: 75 pcs. article-no.: EMBD40FPM

For an excellent

cleaning result thanks to

very high

dirt absorption

MADE IN EEC

SPECIAL FEATURES

The FLAT PRESS MOP MICRO BLUE DB-FC 2.0 is suitable for all commercially available flat press systems. The cover convinces thanks to the tightly woven microfibre yarn with **greatly improved mechanics** on the floor and **optimal cross-linking** of the cleaning solution. The high-quality woven microfibre enables **excellent dirt and water absorption** as well as a **higher surface performance** thanks to the composition of the yarn. The top sheet and the pockets are made of 100% woven polyester material.

PROPERTIES

- Improved mechanics on the floor
- Optimal cross-linking of the cleaning solution
- Ideally suited for preparation
- Excellent, high dirt and water absorption
- Higher area performance
- Long service life due to high-quality manufacturing process

APPLICATION

Can be used both dry and wet on smooth, laminated and unlaminated floor coverings.

APPLICATION AREA

For maintenance cleaning, as well as wet and dry cleaning of any surfaces, such as elastic coverings, hard coverings, porcelain stoneware, stone floors, tiles, laminate floors and ideally suited for smooth and porous floor coverings. Optimal for use in health care, clinics, retirement and nursing homes as well as public facilities and building cleaning. The use of the FLAT PRESS MOP MICRO BLUE DB-FC 2.0 in helath care is particularly recommended.

WASHING RECOMMENDATION

It is advisable to wash the mop cover before use. A washing temperature of 60 $^{\circ}\text{C}$ is recommended. A maximum washing temperature of 95 $^{\circ}\text{C}$ should not be exceeded. The use of fabric softeners and bleaching agents should be avoided. Do not exceed 80 $^{\circ}\text{C}$ when drying.

Bag material made of 100% special woven PES
