MADE IN EEC

Cost-effective & optimal alternative to disposable cloths

PROPERTIES

The ECO-LINE 2IN1 microfibre cloth allows cleaning & disinfecting in one step. The yarn composition and the special used wave-cut technology makes the cloth unique. The ECO-LINE 2IN1 microfibre cloth is specially designed for surface disinfection and cleaning in one step.

- 2IN1: Clean and disinfect in one
- Clean, streak-free surfaces thanks to the yarn blend
- Alternative to disposable wipes, as they can be reused several times
- Unbeatable price-performance ratio
- Ideal for disinfecting medical equipment
- Lint-free & stable in shape

ECO-LINE 2IN1 is ideal for an extensive and successful disinfection of surfaces. The required exposure time of disinfection products and optimal cross-linking on the surfaces can be easily achieved with the ECO-LINE 2IN1 cloth. The economical, washable ECO-LINE 2IN1 cloth is the optimal alternative to disposable wipes which can be used for cleaning as well as for disinfecting surfaces.

APPLICATION

The cloth can be used dry with disinfectants, for preparation as well as dry and wet cleaning on surfaces.

APPLICATION AREA

For cleaning and disinfecting any surfaces. Particularly suitable for use in the health care sector, clinics, doctors, surgeries as well as nursing homes.

WASHING RECOMMENDATION

Washing temperature of 60 °C is recommended, maximum washing temperature of 90 °C should not be exceeded. The use of fabric softeners and bleaching detergents should be avoided. In general, it is recommended to wash only unmixed fabrics.

Attention: Due to the light weight of the microfiber cloth, the product may shrink up to 1 cm (approx. 3-4 % shrinkage value).

Do not use fabric softener & bleach
Wash according to type

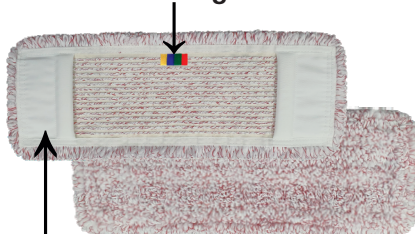

THE MICROFIBRE YARN COVER WITH HIGH FILAMENT CONTENT!

MADE IN EEC

Special
Cover 50/50

4-colour coding

**Bag material made of
100% polyester with inserts
tear resistant & water permeable**

Do not use fabric softener
Wash according to type

SPECIFICATIONS

Yarn mixture:	100% polyester, with high filament content
Yarn colour:	BLUE-WHITE RED-WHITE
Cover sheet:	50% fine cotton and 50% polyester
Edging tape:	100% polyester, WHITE
Bag material:	100% polyester
Shrinkage value:	2-3%
Washing label:	Embroidery label in WHITE, embroidered on 2 sides
4-colour coding:	BLUE, GREEN, YELLOW, RED

Measurements:	40 cm	50 cm
Weight:	ca. 130 g	ca. 160 g

UNITS:	75 pcs.	50 pcs.
article-no.:	MED40BL	MED50BL ●
	MED40RO	MED50RO ●

SPECIAL FEATURES

The top sheet is made of 50% fine cotton and 50% polyester. To enable optimum absorbency of the cover, this mixing ratio is recommended. The bags' material is made of 100% woven polyester and reinforced with a sponge insert to help the holder slide. The high-quality microfiber content and the composition of the top sheet guarantee perfect dirt and water absorption as well as optimal gliding properties. Due to the **high proportion of filaments**, a very high area performance as well as an optimal cross-linking of cleaning and disinfecting agents is achieved.

PROPERTIES

The **microfiber yarn cover** offers an above-average service life due to its special tufting process, whereby the loops are firmly anchored in the cover sheet. The mop cover convinces with excellent gliding properties and high dirt and water absorption.

- **High surface performance and excellent cross-linking** of cleaning and disinfecting agents thanks to the high proportion of filaments --> Continuous fibres
- Ideal dirt and water absorption
- Very good gliding properties for fatigue-free work
- Tear-resistant and water-permeable polyester pockets
- Long service life due to high-quality manufacturing process

APPLICATION

Can be used both dry and wet on smooth, coated and uncoated floor coverings.

APPLICATION AREA

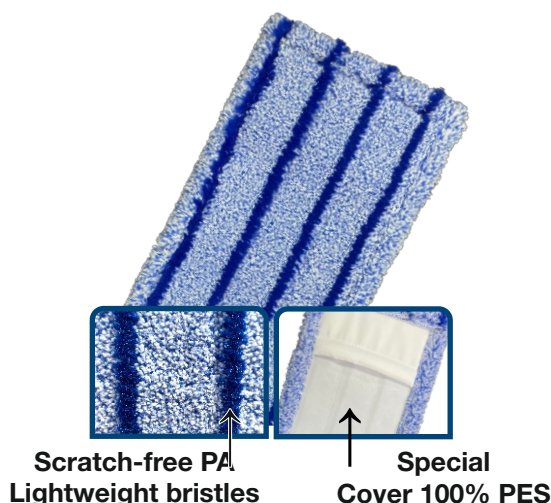

For maintenance cleaning, as well as for wet and dry cleaning of any surfaces, such as elastic coverings, hard coverings, porcelain stoneware, stone floors, tiles, laminate floors and ideally suited for smooth and porous floor coverings. Particularly suitable for use in health care, clinics, retirement and nursing homes as well as public facilities and building cleaning.

WASHING RECOMMENDATION

A washing temperature of 60 °C is recommended. A maximum washing temperature of 95 °C should not be exceeded. The use of fabric softeners and bleaching agents should be avoided. In general, it is recommended to wash only unmixed fabrics. Do not exceed 80 °C when drying.

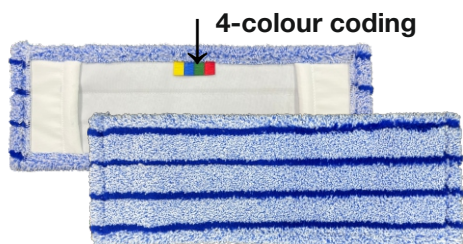

THE SMOOTH-RUNNING SENSATION AMONG MOP COVERS!

MADE IN EEC

SPECIFICATIONS

Yarn mixture:	80% PES/MF 20% PA	
Yarn colour:	BLUE with stripes in DARK BLUE	
Cover sheet:	100% woven polyester	
Bag material:	100% woven polyester	
Shrinkage value:	2-3%	
Washing label:	Embroidery label in WHITE, embroidered on 2 sides	
4-colour coding:	BLUE, GREEN, YELLOW, RED	
Measurements:	40 cm	50 cm
Weight:	ca. 110 g	ca. 133 g
UNITS:	75 pcs.	50 pcs.
article-no.:	ERB40DBFC	ERB50DBFC

SPECIAL FEATURES

The **RUNNER BLUE DB-FC 2.0**, the **sprinter** among mop covers, thanks to the tightly woven microfibre yarn with **greatly improved mechanics** on the floor and **optimum cross-linking** of the cleaning solution. The high-quality woven microfibre enables **excellent dirt and water absorption** as well as a **higher surface performance** thanks to the composition of the yarn. The new PA (polyamide) lightweight bristles, which do not scratch the floor, make the mop cover a **smooth-running** sensation that ensures **ergonomic and fatigue-free cleaning and working**. The mop cover is the trend-setter for the cleaning industry. The top sheet and pockets are made from 100% woven polyester material. The sponge insert in the pockets supports the gliding of the holder.

PROPERTIES

- Smooth running sensation
- Improved mechanics on the floor
- Optimal cross-linking of the cleaning solution
- Ideally suited for preparation
- Excellent dirt and water absorption
- Higher area performance
- Long service life due to high-quality manufacturing process

**Fast and fatigue-free
to the optimum
cleaning result**

APPLICATION

Can be used both dry and wet on smooth, coated and uncoated floor coverings.

APPLICATION AREA

For maintenance cleaning, as well as wet and dry cleaning of any surfaces, such as resilient coverings, hard coverings, fine stoneware, stone floors, tiles, laminate floors and ideally suited for smooth and porous floor coverings. Optimal for use in health care, clinics, retirement and nursing homes as well as public facilities and building cleaning. The use of the **RUNNER BLUE DB-FC 2.0** in large laundries is particularly recommended. For this purpose, the mop covers can be equipped with intelligent RFID chip technology.

WASHING RECOMMENDATION

It is advisable to wash the mop cover before use. A washing temperature of 60 °C is recommended. A maximum washing temperature of 95 °C should not be exceeded. The use of fabric softeners and bleaching agents should be avoided. In general, it is recommended to wash only clean fabrics. Do not exceed 80 °C when drying.
