

## FLEXAL®

### ULTRA WETTING POWERFUL MULTI-PURPOSE CLEANER

#### PROPERTIES

The maintenance cleaner FLEXAL is a highly active, ultra-wetting and multifunctional multi-purpose cleaner with excellent wetting power, which is very well suited for cleaning PU-finished, coated and uncoated floor coverings without leaving streaks or residues. Thanks to ideal wetting properties, even highly water-repellent floor coverings and water-resistant surfaces can be cleaned optimally. Also suitable for sanitary areas.

- Excellent wetting properties
- Low surfactant
- High dirt carrying capacity
- Quick drying

FLEXAL can replace alcohol cleaners, all-purpose cleaners, vending machine cleaners, neutral cleaners and line removers.

#### APPLICATION AREAS

Can be used on all water-resistant surfaces and resilient floor coverings, e.g. PVC, linoleum, rubber, PU-finished floors, etc. as well as types of coverings protected by coating. Particularly suitable for water-repellent, elastic floor coverings and fine stoneware. Check material compatibility in advance. We accept no liability for damage caused by improper use.

#### APPLICATION

On all water-resistant surfaces, objects and floor coverings, clean as usual. In case of extreme soiling and smearing, apply undiluted with suitable mechanics, then wipe off. Suitable for automatic machine cleaning and for floor cleaning in a 1- or 2-step wiping process. 20 - 40 ml / 8 litres of water (depending on the degree of soiling), in case of heavy soiling the dosage can be increased accordingly. Use undiluted in sanitary areas.

**REGULATION (EC) No 1272/2008:** The mixture is not classified as dangerous according to Regulation (EC) No 1272/2008.
