PROPERTIES

The universal BASIC-LINE 210 cloth is the ideal solution for daily maintenance cleaning as well as for deep cleaning. Thanks to its particularly soft and supple fleece material, it is suitable for all surfaces – even delicate surfaces can be cleaned gently and effectively, without leaving scratches or residues.

- Optimal cleaning results
- Shape-retaining & durable
- Universally applicable

APPLICATION

Suitable for both dry and damp use.

APPLICATION AREA

Ideal for both deep and routine cleaning of all surfaces. Particularly recommended for post-construction cleaning as well as for regular use in public facilities and office buildings.

Do not use fabric softener or bleach
 Wash according to type

WASHING RECOMMENDATIONS

A washing temperature of 60 °C is recommended. A maximum washing temperature of 95 °C should not be exceeded. The use of fabric softener and bleaching agents should be avoided. It is generally recommended that the product should only be washed in its pure form. Do not exceed 80°C when drying.
