HOTEL
LINE

For more than three decades, the ARCORA® GROUP has stood for quality, innovation, and reliability in the cleaning and hygiene industry. With five of our own production facilities and a product range of over 1,400 items, we offer everything from a single source, from development and manufacturing to direct delivery from the producer. In addition, we collaborate worldwide with selected specialist distributors to ensure our customers receive professional support and comprehensive service directly on site. This strong network enables us to make our products globally available while maintaining ARCORA's high standards of quality and expert consultation. Our broad range of services allows us to respond flexibly to our customers' needs and provide tailor-made solutions.

The hospitality industry places particularly high demands on cleanliness, hygiene, and efficiency. Guests expect not only top-level comfort and service, but also a spotless, well-maintained environment, from the lobby and guest rooms to the kitchen, spa, and outdoor areas. This is where our Hotel Line comes in: it combines practical, user-oriented products with professional cleaning systems specifically designed to meet the needs of hotels, restaurants, and catering businesses. Our philosophy is clear: Cleanliness with responsibility.

We continuously develop new products that are environmentally friendly, resource-efficient, and cost-effective. Modern technologies, innovative materials, and well-designed application concepts ensure maximum cleaning performance with minimal use of water, energy, and chemicals. In this way, we help you maintain your hygiene standards while actively contributing to environmental protection.

Close cooperation with our customers around the world is the key to our success and the foundation for solutions that truly deliver in practice. With this catalog, we would like to introduce you to our wide range of products—from cleaning and care agents to cleaning textiles, cleaning systems, trolleys, polishing and scrubbing pads, as well as cleaning machines and sanitary hygiene products. Discover products that make your daily work easier, increase your efficiency, and enhance the well-being of your guests.

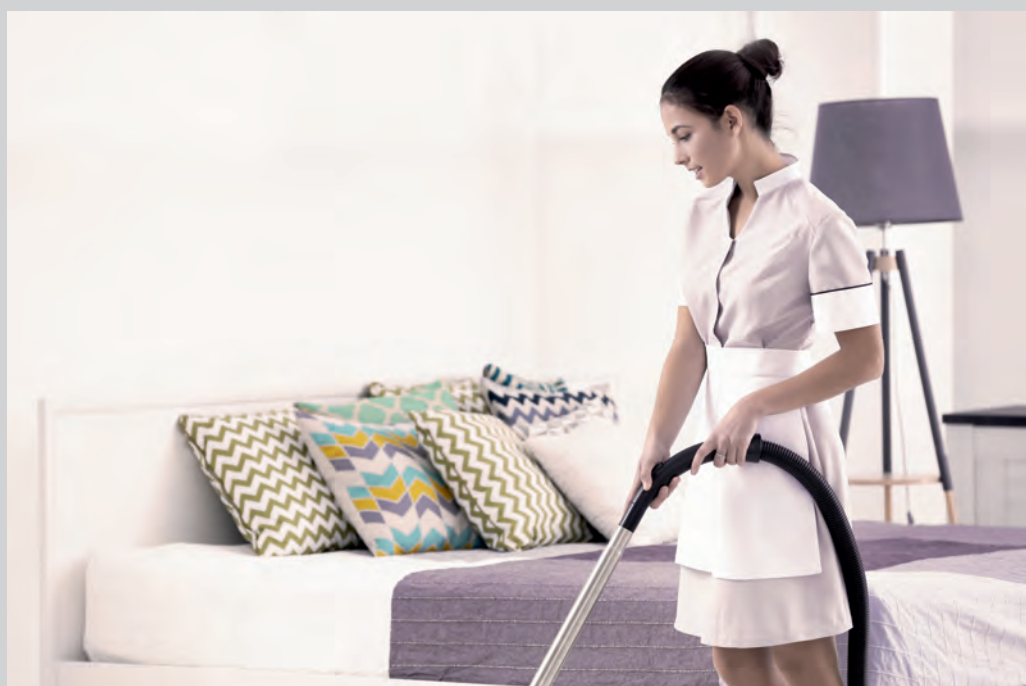

*Looking ahead is one of the most crucial tasks of our time.
This is achieved by combining powerful parameters into a holistic strategy,
all while recognizing and meeting the complex demands of the market.*

For a clean future,

Seamless base for longer lifetime & no gaps

The high-quality disposal bag offers enough space for transporting soiled textiles, mops or waste. It is made of **hard-wearing polyester**, which is both robust and durable. Thanks to the specially developed **seamless construction** of the base, the disposal bag can be filled without worrying about unwanted tears. Thanks to its optimal dimensions and practical design, the disposal bag can be conveniently attached to cleaning trolleys and used for hygienic disposal during daily cleaning work. The bag is washable at 30-60° C, making it reusable and, compared to plastic bin liners, an environmentally friendly and economical aid that ensures tidiness and cleanliness.

Seamless bag base

PLASTIC GARBAGE BAGS

- Are mostly used as disposable garbage bags
- Cause huge mountains of waste
- It takes between 100 and 500 years for a plastic bag to slowly break down into harmful small parts (microplastics)

PREMIUM-LINE DISPOSAL BAG

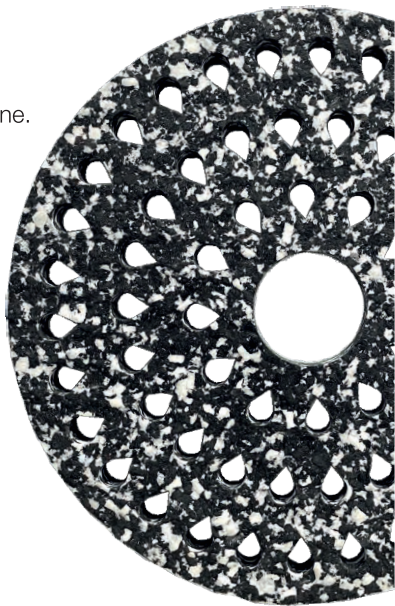

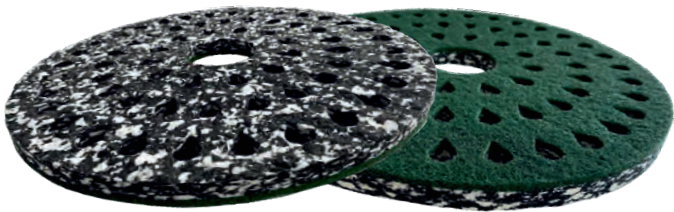

- Specially developed seamless base
- Made from hardwearing polyester that is robust and durable
- Washable and reusable
- Environmentally friendly and economical

ARCORA® PU-PAD *Light*

The 100% environmentally friendly pad with waterdrop perforation system is the ideal pad for maintenance cleaning, **especially with smaller scrubber drier machines.**

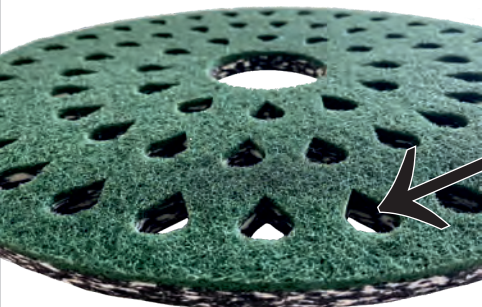

The ARCORA® PU-PAD Light...

- achieves a maintenance cleaning performance of up to **100,000 m²**.
- is perfect for **smaller scrubber drier machines.**
- is especially **robust and durable** due to the composition of polyester, polyether bonded with polyurethane.
- is applicable on all types of water-resistant elastic and hard floor coverings, even on porcelain stoneware floors and safety floors up to R13.
- has a **higher water absorption** than conventional pads.
- is **100% environmentally friendly** due to the exclusive use of recycled products.

The ARCORA® PU-PAD Light...

- less pressure needed especially on **smaller-battery scrubber-drier machines** with lower Ah battery, e.g. 56 Ah, enabling longer running time.
- lengthens the running time of lithium batteries.
- reduces the pressure on motors and batteries enabling a higher m² performance.
- less pressure on small cable scrubber-drier motors.

Waterdrop System

PLUS-MINUS effect

- Improved gliding over the floor
- Better dirt absorption
- Better water distribution & saving

- Due to the applied water drop perforation, the reduction in friction compounds the plus/minus effect without damaging the floor → gentle but effective cleaning
- The perforation technique enables better water distribution and dirt absorption
- To protect the environment, the water drop system reduces the amount of water needed
- Due to the die-cutting technology of the PU PAD Light, the machine glides more easily over the floor
