Item-no.:	EWM40WE	EWM50WE

PROPERTIES

The **DISPOSABLE MOP** offers high reliability wherever hygiene is a top priority. It is particularly suitable for all areas where quick, safe cleaning without the risk of recontamination is necessary. Thanks to its high-quality microfibre material, the mop enables effective and thorough cleaning. Dirt, dust and liquids are reliably absorbed.

- Hygienic, fast and economical solution
- Lightweight, powerful and ready to use
- Reduces the risk of cross-contamination

APPLICATION

Can be used both dry and wet on smooth, coated and uncoated floor coverings. The **DISPOSABLE MOP** can be simply disposed of after use to avoid cross-contamination, or washed and reused several times if required.

APPLICATION AREA

Highly recommended for cleaning tasks where multiple use is not an option. The mop is particularly suitable for sensitive hygiene areas such as healthcare and nursing facilities, ambulances, catering, retail and public areas. It can be used reliably and efficiently in these settings.

WASHING RECOMMENDATION

A washing temperature of 40-60 °C is recommended. A maximum washing temperature of 60 °C should not be exceeded. The use of fabric softeners and bleaching agents should be avoided. In general, it is recommended to wash only similar items together.
