

SALPUREX 3IN1

URINE/LIMESTONE REMOVER AND CEMENT RESIDUE REMOVER

PROPERTIES

Recommended for use on all acid-resistant surfaces and materials in outdoor and indoor pools and other wet room areas. Thoroughly and reliably removes deposits, urine scale, limescale, rust deposits and cement residue.

- Radical cleaner based on hydrochloric acid
- Spontaneously effective due to high acidity
- Corrosion protection through inhibitor

APPLICATION AREAS

For quick removal of stubborn dirt and deposits, e.g. heavy limescale and urine scale. SALPUREX 3IN1 can be used for basic cleaning as well as for daily intermediate cleaning, e.g. in bathrooms with higher water hardness. Do not use on all acid-sensitive surfaces such as marble, artificial stone, granite, chrome, enamel, zinc, nickel, aluminium, toilet lids, etc. Check material compatibility in advance. We accept no liability for damage caused by improper use.

APPLICATION

Pre-water areas well!

Deep cleaning: Undiluted or dilute 1:10 with cold water and apply to the surfaces. Allow to act for a few minutes depending on the degree of soiling. Repeat the process for extremely dirty surfaces.

Intermediate cleaning: Dilute 1:50 to 1:100 with cold water. After cleaning the treated surfaces, rinse off product residues thoroughly and carefully with sufficient clear water to avoid subsequent surface damage caused by residual acid.

INGREDIENTS

< 5 % non-ionic surfactants, cationic surfactants, fragrances (BENZALDEHYDE)

Danger!

Contains hydrochloric acid, 2-propylheptanol ethoxylate (6-10 EO). May be corrosive to metals. Causes severe skin burns and serious eye damage. May cause respiratory irritation.

- Do not breathe mist/vapour/aerosol.
- Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
- IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
- IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water (or shower).
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- Call a POISON INFORMATION CENTRE/doctor immediately.
