

ECOBBLACK 70

SERVICE TROLLEY

MADE FROM RECYCLED BATTERY CASES

With **ECOBBLACK® TECHNOLOGY**, we've redefined how valuable resources can be recovered and repurposed.

At the core of this innovation lies a unique recycling process: empty and discarded battery housings - once considered hazardous waste - are carefully collected, processed, and transformed into a high-quality, robust plastic. This recycled material forms the structural framework of our cleaning trolleys and vacuum cleaners, giving new life to what would otherwise contribute to environmental pollution. By avoiding the use of virgin plastic and instead turning old battery casings into durable components, we not only reduce waste, but also significantly lower CO2 emissions. The ECOBLACK® line stands out with its exceptional durability, user-friendly design, and versatile product range tailored to various cleaning requirements. Every product in this line reflects our belief that sustainability and performance should go hand in hand.

ECOBBLACK® is more than just a material - it's our contribution to a circular economy and a cleaner planet.

ECO BLACK 70

SPECIFICATIONS

Size: 710 x 630 x 1030 mm
Unit: 2 Set's
Item-no.: EB70RC

- Black, robust plastic frame made from recycled materials
- Equipped with 4 smooth-rolling, 360° swivel wheels
