PREMIUM CLEANING SYSTEMS

# PREMIUM CLEANING SYSTEMS HEALTHCARE

*CLEANLINESS YOU CAN RELY ON*

# PREFACE

For more than three decades, ARCORA® GROUP has stood for quality, innovation and reliability in the professional cleaning and hygiene industry. With six production sites and a portfolio of more than 1,400 products, we offer our customers a comprehensive range of services – from development and manufacturing to direct delivery from the manufacturer. Through cooperation with an international network of selected specialist wholesalers, we ensure that our products are available worldwide while also providing competent advice and reliable local service.

The healthcare sector places particularly high demands on hygiene, safety and process quality. In hospitals, care facilities, medical practices and healthcare centers, consistent hygiene standards are essential to reliably protect patients, residents, staff and visitors. Thanks to our many years of experience and our focused specialization in this sensitive field, ARCORA® GROUP has extensive expertise that we continuously incorporate into the development of practical, user-oriented solutions.

Our **HealthCare-Line** has been specifically designed to meet the requirements of the healthcare sector. It combines high-performance products with well-designed cleaning systems tailored to efficient workflows, maximum hygiene safety and cost-effective application. Through close cooperation with users and partners from the field, we continuously develop our solutions and actively share our expertise with our customers.

Guided by our principle of “**Hygiene with Responsibility**”, we combine high cleaning performance with efficiency and sustainability. Modern technologies, innovative materials and efficient application concepts enable optimal cleaning results while reducing the use of water, energy and chemicals – creating safe, efficient and hygienic working environments in healthcare facilities.

With this catalog, we present our comprehensive range for professional cleaning and hygiene in healthcare environments – from cleaning textiles, cleaning systems and cleaning trolleys to cleaning and polishing pads, cleaning and maintenance agents, as well as cleaning machines and solutions for surface, sanitary and area hygiene.

*Looking ahead is one of the most crucial tasks of our time.  
This is achieved by combining powerful parameters into a holistic strategy,  
all while recognizing and meeting the complex demands of the market.*

For a clean future,

Sami Memili  
**CEO / PRESIDENT**  
ARCORA® GROUP

Sustainability is increasingly gaining importance and is firmly anchored in ARCORA®'s corporate philosophy. For ARCORA®, a company that looks beyond the horizon, responsibility towards people, the environment, and society is of great significance. Sustainability has been a core value for us from the beginning. In all our products and processes, we consistently ensure that, in addition to economic considerations, we do not neglect social and environmental aspects, always acting with a future-oriented approach.

## THREE-PILLAR MODEL

We are an internationally operating company and bear a special responsibility towards people, our environment, and society. Sustainability is ingrained in our daily practices, guided by the principle: 'Making a difference for generations'. We align ourselves with the Three-Pillar Model to continuously improve. Thinking about tomorrow today and assuming responsibility towards people, the environment, and society is inherent for us as a company.

### **Social Sustainability:**

We advocate for the well-being of individuals within the company and society as a whole.

### **Environmental Sustainability:**

We safeguard the environment and natural ecosystems in the production, distribution, and consumption of our products.

### **Economic Sustainability:**

Quality, service, innovation, and other factors form the basis for our continuous growth.

## FOR A LIVABLE ENVIRONMENT, EVEN IN THE FUTURE!

As a company, we are committed to playing an active role in addressing global climate change. For this reason, we make a dedicated climate contribution: our direct and indirect greenhouse gas emissions are recorded, analyzed, and reduced wherever possible throughout our business operations. We achieve this through a range of measures, including the efficient use of resources, the reduction and responsible disposal of waste, the development of products made from recycled materials, and by raising awareness of climate protection and sustainability among our employees and stakeholders.

## CLIMATE CONTRIBUTION - FOR THE SAKE OF THE ENVIRONMENT

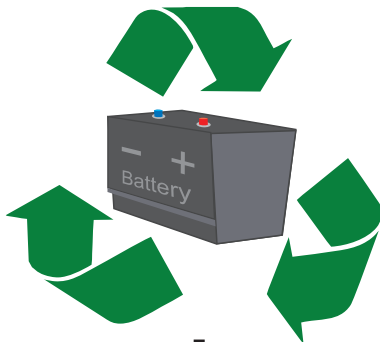

As emissions cannot be completely avoided despite consistent reduction measures, we contribute to climate protection by supporting verified international climate projects. This is based on the recording and accounting of our direct and indirect greenhouse gas emissions in accordance with the Greenhouse Gas Protocol (Scopes 1, 2 and 3). The resulting volume of emissions is offset through certified projects. In this way, we support climate protection initiatives in India, helping to reduce emissions while promoting sustainable development at the local level — with the aim of preserving a livable environment for future generations.

## SOCIAL THINKING - RESPONSIBLE ACTIONS

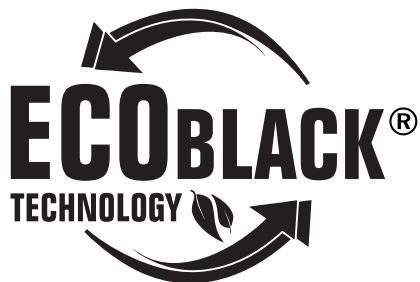

Our aim is to continuously improve our products and processes in order to establish optimal solutions for greater sustainability. To achieve this, we have set clear objectives that significantly shape our daily actions: in resource-efficient production, in our responsibility towards employees, customers and suppliers, and across our entire value chain. The ARCORA®GROUP is committed to taking social and environmental responsibility beyond its economic activities and to acting with fairness and integrity. Taking responsibility for our employees, business partners, suppliers, as well as for society and the environment is a matter of course for us and an integral part of our corporate philosophy.

## SUSTAINABLE SUPPLY CHAIN

With ECOBLACK® TECHNOLOGY, we've redefined how valuable resources can be recovered and repurposed. At the core of this innovation lies a unique recycling process: empty and discarded battery housings - once considered hazardous waste - are carefully collected, processed, and transformed into a high-quality, robust plastic. This recycled material forms the structural framework of our cleaning trolleys and vacuum cleaners, giving new life to what would otherwise contribute to environmental pollution. By avoiding the use of virgin plastic and instead turning old battery casings into durable components, we not only reduce waste, but also significantly lower CO2 emissions. The ECOBLACK® line stands out with its exceptional durability, user-friendly design, and versatile product range tailored to various cleaning requirements. Every product in this line reflects our belief that sustainability and performance should go hand in hand.

**ECOBLACK® is more than just a material - it's our contribution to a circular economy and a cleaner planet.**

With our commitment to sustainable and responsible production, we set a clear standard for transparent supply chains and the conscious use of resources. Our production facilities meet recognized requirements for the traceability of recycled materials throughout the entire production chain. This ensures that recycled raw materials can be clearly identified and transparently tracked at every stage of the manufacturing process. Our cotton and blended yarn mop covers contain defined proportions of recycled materials and meet high standards in terms of quality, transparency and responsible manufacturing. In this way, we combine the functionality and durability of our cleaning textiles with a sustainable and resource-efficient use of materials.

### **ISO Certifications – Quality, Safety and Responsibility**

Quality, reliability and safety are essential in the healthcare sector. To consistently meet these high standards, our processes and management systems are certified in accordance with internationally recognized ISO standards. These certifications demonstrate our strong commitment to structured processes, continuous improvement and responsible conduct across all areas of our business.

### **ISO 9001:2015 – Quality Management**

Certification according to ISO 9001:2015 confirms our comprehensive quality management system. It ensures that all processes – from development and production through to delivery – are clearly defined, monitored and continuously optimized. The goal is to guarantee consistently high product quality and reliably meet the requirements of our customers.

### **ISO 10002:2018 – Customer-Oriented Complaint Management**

With ISO 10002:2018, we emphasize our strong commitment to customer orientation. The standard establishes transparent and structured procedures for handling feedback and complaints. This ensures that concerns are systematically recorded, evaluated and resolved in a sustainable manner – forming the basis for continuous improvement and long-term partnerships.

### **ISO 14001:2015 – Environmental Management**

Certification according to ISO 14001:2015 demonstrates our responsible environmental management. It confirms that we systematically identify environmental aspects, conserve resources and continuously reduce the environmental impact of our activities. In doing so, we actively contribute to sustainable business practices – also in the interest of our customers in the healthcare sector.

### **ISO 45001:2018 – Occupational Health and Safety**

With ISO 45001:2018, we set clear standards for occupational health and safety. The standard ensures that workplace risks are systematically identified, assessed and minimized. This enables us to create safe working conditions, promote the health of our employees and ensure stable and reliable production processes.

### **Our Commitment**

The combination of these ISO certifications represents a holistic management system that integrates quality, safety, environmental responsibility and customer orientation. For our partners in the healthcare sector, this means verified processes, high transparency and products they can rely on at all times.

# PUBLIC & PATIENT AREAS

# PUBLIC & PATIENT AREAS

## BILANZ® *Fresh*

pH 1-2

### SANITARY MAINTENANCE CLEANER

Fast-acting acid-based sanitary maintenance cleaner with a lasting fresh fragrance that effortlessly removes limescale residues, lime soaps, urine scale, lime-bound grease, rust and grease stains.

- Regular application prevents limescale build-up
- Also suitable for use on intact chrome and other sanitary fittings and for foam triggers

Container	Item-No.	Unit
1 l Bottle	01049	12x1 l
10 l Canister	01039	1x10 l

## SO-KLAR RTU

pH 7

### READY-TO-USE GLASS AND PLASTIC CLEANER

Ready-to-use cleaner with a fresh **summer fragrance** for streak-free cleaning. Effortlessly removes dirt deposits, grease and oil from shiny surfaces.

- **SPRAY - 1x WIPE - DONE!**
- Cleans quickly, residue-free and streak-free
- Gentle on skin and material

Container	Item-No.	Unit
750 ml Bottle	01347	10x750 ml
1 l Bottle	01024	12x1 l
10 l Canister	01023	1x10 l

## CITRUS® *Fresh*

pH 8

### FRAGRANCE-NEUTRAL CLEANER

Highly concentrated, all-purpose maintenance cleaner for streak-free cleaning of hard, water-resistant surfaces such as plastics, glass, ceramics or stainless steel.

- Leaves a radiant shine and pleasant **citrus fragrance**
- Quick-drying and economical to use

Container	Item-No.	Unit
1 l Bottle	01055	12x1 l
10 l Canister	01060	1x10 l

## FLEXAL®

pH 7

### ULTRA POWERFUL MULTIPURPOSE CLEANER

Highly active multi-functional cleaner with excellent properties for streak-free cleaning of PU-coated, coated and uncoated floor coverings. Ideal for cleaning highly water-repellent floor coverings. Low in surfactants and fast drying.

- High dirt-carrying capacity and excellent wetting properties
- Can replace alcohol, all-purpose, automatic and neutral cleaners

Container	Item-No.	Unit
1 l Bottle	01038	12x1 l
10 l Canister	01037	1x10 l

## BIO-LIVE®

pH 8,6-8,9

### ORGANIC CLEANER AND ODOR REMOVER

The odor eliminates even stubborn odours, e.g. in waste bins, dirty laundry depots, toilets, washrooms, etc. The microorganisms break down deep-seated dirt and eliminate unpleasant odors.

- Also suitable for treating stains on carpets, fabrics, table and bed linen
- Leaves a long-lasting pleasant fragrance

Container	Item-No.	Unit
1 l Bottle	01096	12x1 l
5 l Canister	01082-05	1x5 l

## EDOL 2IN1 RTU

pH 5

### STAINLESS STEEL CLEANER AND POLISHING IN ONE

Ready-to-use stainless steel cleaner and care product for all aluminum, anodized, stainless steel and non-ferrous metal surfaces. Leaves a caring film. Prevents rapid resoiling when used regularly

- Removes tarnish on surfaces and appliances as well as fingerprints, water marks and other soiling
- Restores cleaned surfaces to their original shine

Container	Item-No.	Unit
1 l Bottle	01170	12x1 l

**WALES**

pH 4-5

**HAND WASH LOTION AND SHOWER LOTION**

High-quality skin cleansing lotion for gentle cleansing and skin care with a fresh melon fragrance. Leaves a noticeably pleasant and moisturising pleasant feeling on the skin.

- Mild and nourishing, pH value is adapted to the skin
- Can be used as a soap cream and shower gel in all areas

Container	Item-No.	Unit
500 ml Bottle	01188	9x500 ml
5 l Canister	01186	1x5 l
10 l Canister	01187	1x10 l

## SUPER-LINE 300 MICROFIBER CLOTH

**BESTSELLER**

40° - 95°

### BLUE/GREEN/YELLOW/PINK/GREY

The premium microfiber cloth, featuring innovative Superpol fiber, is a small and handy cloth designed for all types of routine cleaning. The innovative microfiber hot-cut technology ensures that the cloths are uniformly prepared. Very high water absorption.

#### Manufactured specifically for the healthcare sector.

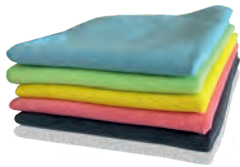

- Wave-Cut: Longer service life compared to classic edging tapes thanks to hot-cut technology (Ultra Sonic)
- Lint-free and dimensionally stable

Size   Weight	Item-No.	Unit
32 x 32 cm   ca. 30 g/Cloth	ASPL3232BL	20x10 pcs.
	ASPL3232GR	
	ASPL3232GE	
	ASPL3232RO	
	ASPL3232GU	

## SOFT-LINE 320 MICROFIBER CLOTH

40° - 95°

### BLUE/GREEN/YELLOW/PINK/GREY/WHITE

Soft, smooth cloth that absorbs the smallest particles thanks to static charge and capillary action. Ideal for maintenance cleaning and polishing work. For optimum and lint-free cleaning results.

- Above-average service life
- Can be used on all surfaces
- Double-stitched edge protection with high-quality binding tape
- Maximum absorption of dirt and water

Size   Weight	Item-No.	Unit
40 x 40 cm   ca. 50 g/Cloth	ASL4040BL	20x10 pcs.
	ASL4040GR	
	ASL4040GE	
	ASL4040RO	
	ASL4040GU	
	ASL4040WE	

## BASIC-LINE 210 MICROFIBER CLOTH

40° - 95°

### BLUE/GREEN/YELLOW/PINK/GREY

The optimal and favourable cloth for maintenance and basic cleaning. Can be used on all surfaces. Also ideal for final building cleaning.

- Double-stitched edge protection with high-quality binding tape
- Very good cleaning results
- Dimensionally stable and universally applicable

Size   Weight	Item-No.	Unit
38 x 38 cm   ca. 32 g/Cloth	ABL3838BL	20x10 pcs.
	ABL3838GR	
	ABL3838GE	
	ABL3838RO	
	ABL3838GU	

## FINE-LINE MICROFIBER GLASS CLOTH

40° - 95°

### BLUE/GREEN/YELLOW/PINK

"A must for glass cleaning". This cloth enables streak-free and lint-free cleaning of glass, mirrors and chrome.

- Double-stitched edge protection with high-quality binding tape
- Above-average service life
- Maximum absorption of dirt and water
- Super absorbent: absorbs 8 times its own weight in liquid

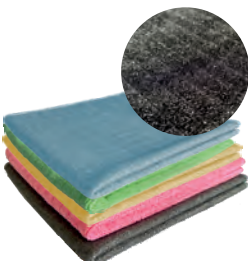

Size   Weight	Item-No.	Unit
40 x 40 cm   ca. 52 g/Cloth	AFL4040BL	20x10 pcs.
	AFL4040GR	
	AFL4040GE	
	AFL4040RO	

## SCRUB & CLEAN 2IN1 MICROFIBER CLOTH

Alternative to the cleaning sponge!

40° - 95°

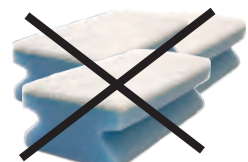

### BLUE/GREEN/YELLOW/PINK/GREY

The cloth is ideal for stubborn dirt and encrustations, especially in kitchens and sanitary areas.

- With active dirt-removing side and finely microfiber side
- Excellent dirt-removing power thanks to the bristles
- High dirt and water absorption thanks to microfiber side
- For thorough and SCRATCH-FREE cleaning of surfaces

Size   Weight	Item-No.	Unit
40 x 40 cm   ca. 45 g/Cloth	ASC4040BL	30x5 pcs.
	ASC4040GR	
	ASC4040GE	
	ASC4040RO	
	ASC4040GU	

**NON-WOVEN GENERAL PURPOSE CLOTH**

**BLUE/GREEN/YELLOW/PINK/WHITE**

Universally applicable, lint-free cleaning cloths that impress with their high quality, durability and versatility. The cloths reliably absorb dirt, dust and liquids and are characterised by their high absorbency and excellent dirt pick-up.

- For universal use: For almost all surfaces
- Suitable for dry, damp and wet applications as well as for **disinfection**
- Highly absorbent: Excellent dirt pick-up with no linting
- Washable and reusable
- OEKO-TEX® Standard 100 certified

Size   Weight	Item-No.	Unit
36 x 40 cm   ca. 110 g/m <sup>2</sup>	VA3640BL110	20x10 pcs.
	VA3640GR110	
	VA3640GE110	
	VA3640RO110	
	VA3640WE110	

Available in additional sizes and weights upon request.

**UNIVERSAL CLOTH 2.0**

**BLUE/GREEN/YELLOW/RED**

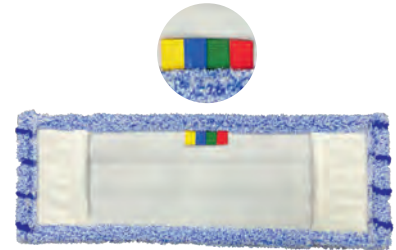

Is ideal for cleaning all smooth surfaces. The particularly high absorption rate ensures quick and efficient dirt and water removal. It's very dependable - removing dirt, dust and moisture without leaving scratches or streaks.

- Versatile and durable
- Coated fleece: Highly absorbent & robust
- Lint-free & streak-free cleaning

Size   Weight	Item-No.	Unit
35 x 40 cm   ca. 140 g/m <sup>2</sup>	AUT3540BL	20x10 pcs.
	AUT3540GR	
	AUT3540GE	
	AUT3540RO	

**INDIVIDUAL COLOUR SELECTION**

The seams and binding tapes on the back of our mop covers can be color-coded according to their intended use – for example to differentiate between various facilities or specific areas such as operating rooms. Special colors are available upon request. In addition, each mop cover can be equipped with an individual color-coding system.

**LABELS / EMBROIDERY**

A label with your own company logo increases the recognition value of your company. At the same time, it also serves as an advertising medium, for self-identification, and to enhance your professional image. The label can be attached to all models as a high-quality embroidered or satin label.

We are also happy to produce private label labels for our microfiber cloths on request.

We produce with your company logo

**Purchase quantity Own Label:**

**Mop covers:**  
40 cm from 525 pieces  
50 cm from 500 pieces

520 mm	TH520	

## PREMIUM-LINE DISPOSAL BAG

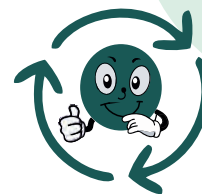

Available in 5 colours, ideal for waste separation in different areas!

Size	Item-No.	Unit
760 x 1000 mm 120 litres	PLS120BL	25 pcs.
	PLS120GR	
	PLS120GE	
	PLS120RO	
	PLS120GU	

Seamless base for longer lifetime & no gaps

The high-quality disposal bag offers enough space for transporting soiled textiles, mops or waste. It is made of **hard-wearing polyester**, which is both robust and durable. Thanks to the specially developed **seamless construction** of the base, the disposal bag can be filled without worrying about unwanted tears. Thanks to its optimal dimensions and practical design, the disposal bag can be conveniently attached to cleaning trolleys and used for hygienic disposal during daily cleaning work. The bag is washable at 30-60° C, making it reusable and, compared to plastic bin liners, an environmentally friendly and economical aid that ensures tidiness and cleanliness.

Nahtlose Bodenfläche

### PLASTIC GARBAGE BAGS

- Are mostly used as disposable garbage bags
- Cause huge mountains of waste
- It takes between 100 and 500 years for a plastic bag to slowly break down into harmful small parts (microplastics)

### PREMIUM-LINE DISPOSAL BAG

- Specially developed seamless base
- Made from hardwearing polyester that is robust and durable
- Washable and reusable
- Environmentally friendly and economical

## SUNSHINE ProPAD 3IN1

### CLEANING, POLISHING AND UHS-POLISHING

Unlike conventional floor pads which only clean, the SUNSHINE ProPAD 3IN1 delivers brilliant results without any additional steps. It is ideal for efficient and thorough maintenance cleaning with impressive sustainable performance. With the ARCORA SUNSHINE ProPAD 3IN1 you can effortlessly clean up to **65,000 m<sup>2</sup>** of floor space – efficiently, sustainably and reliably.

- Multiple steps combined in one pad: cleaning, polishing and ultra-high-speed polishing 3IN1
- Cleaning and polishing in one step
- 4-6 times longer lasting and up to 80% cost savings
- Environmentally friendly cleaning without chemicals, **ONLY WITH WATER**
- Brilliant results

It cleans and polishes coated as well as uncoated floors particularly effectively. Thanks to the unique 12,000-grit finish, coated surfaces are treated optimally. The pad is suitable for both wet cleaning and dry polishing. It is compatible with scrubber dryers (150–600 rpm), ultra-high-speed polishing machines (UHS 1500 to UHS 3000 rpm), oscillating and orbital machines, as well as scrubber robots.

# SUNSHINE FLOOR CARE SYSTEMS

## ARCORA® DIAMOND CLEAN TECHNOLOGY – THE FUTURE OF FLOOR CARE

In times of so much brand diversity, one thing counts above all: creating added value, with convincing solutions. With the innovative **Diamond Clean Technology** ARCORA® offers a complete solution for cleaning, care and polishing of all floor types when used with scrubber-dryer machines and ultra-high-speed machines. Since 1992, ARCORA® has been developing modern floor care systems. Our **Diamond Clean Technology** cleans and polishes floors in one step, **without any chemical additives**.

Made from 100% recycled polyester and natural hair

### THREE FUNCTIONS, ONE PAD – MAXIMUM EFFICIENCY

Unlike conventional floor pads which only clean, the **SUNSHINE ProPAD 3IN1** delivers brilliant results without any additional steps. It is ideal for efficient and thorough maintenance cleaning with impressive sustainable performance. With the **ARCORA® SUNSHINE ProPAD 3IN1** you can effortlessly clean up to **65,000 m²** of floor space – efficiently, sustainably and reliably.

- ✓ **Multiple steps combined in one pad: cleaning, polishing and ultra-high-speed polishing 3IN1**  
Fast, efficient workflow. Only one pad instead of three.
- ✓ **Cleaning and polishing in one step**  
For coated and uncoated floors, scrubber-dryers with **150-600 rpm**
- ✓ **Ultra-high-speed polishing**  
High-speed polishing with machines from **1500 to 3000 rpm**
- ✓ **4-6 times longer lasting and up to 80% cost savings**  
Lower consumables, less storage space and labour required
- ✓ **Environmentally friendly cleaning without chemicals – ONLY WITH WATER**  
Works exclusively with water. Safe on users and floors.
- ✓ **Brilliant results**  
Visible after the very first application.

#### APPLICATION

The **ARCORA® SUNSHINE ProPAD 3IN1** offers outstanding cleaning performance and efficiency. It thoroughly cleans and polishes coated and uncoated floors, delivering perfectly maintained surfaces thanks to its unique **12,000-grit structure**. Whether for wet cleaning, dry use, or high-speed polishing, the SUNSHINE ProPAD 3IN1 offers versatile applications and is compatible with scrubber dryers (**150–600 rpm**), ultra-high-speed polishing machines (**UHS 1500–3000 rpm**), as well as oscillating and orbital machines. Ideal for the future of cleaning: The SUNSHINE ProPAD 3IN1 is perfectly suited for use with **scrubbing robots**, delivering highly efficient, automated floor care at the highest standard.

#### APPLICATION AREA

Ideal for use in commercial, industrial and public areas such as shopping malls, supermarkets and airports. Suitable for coated and uncoated floors, such as concrete, natural stone, terrazzo, marble, granite, PVC and ceramic.

**Area performance up to 65,000 m²**  
**Grain size 12,000**

**Specially designed for the health care sector**

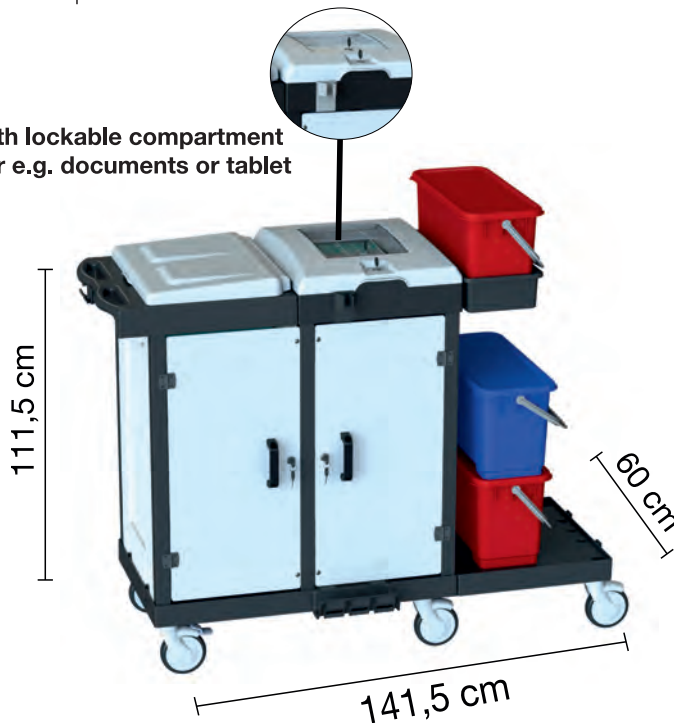

The BORA MEDICAL 750 X-LINE was developed specifically for professional cleaning requirements in healthcare settings. The hygiene trolley impresses with its high stability, well-thought-out functionality, and maximum user-friendliness. The 360° swivel, smooth-running 150 mm wheels ensure excellent maneuverability, even in tight or heavily frequented areas. The closed system with lockable cabinets and lids enables safe and hygienic storage of accessories and supports structured, safe working. The four color-coded 6-liter buckets are integrated into the cabinet and are not visible from the outside. Thanks to the integrated box system, mop covers can be efficiently pre-soaked and carried directly, which optimizes workflows and saves time. The BORA MEDICAL 750 X-LINE is largely made from environmentally friendly recycled materials (ECOBLOCK) and thus actively contributes to reducing CO<sub>2</sub> emissions.

### Design of the MEDICAL 750 X-LINE hygiene trolley with box system:

- Black, robust plastic frame made from recycled materials
- All 6 wheels are smooth-running and swivel 360°
- 3 x 20 liter mop boxes, colours as desired red or blue
- 4 x 6 liter plastic buckets in black with handles in blue, green, yellow, red in cupboard with manually lockable lid incl. storage for documents
- 1 x plastic tray in black
- 1 x plastic box in black with lid in turquoise
- With sturdy plastic doors designed specifically for healthcare, manually lockable (key)
- Waste/laundry bag 140 liter with lid in a second lockable cupboard
- Side shelf for mop and handle holder

With lockable compartment  
For e.g. documents or tablet

Item-No.: MD750BOX  
Unit: 1 Set
