# FUTURE MOP

## TASSELLED FRINGES

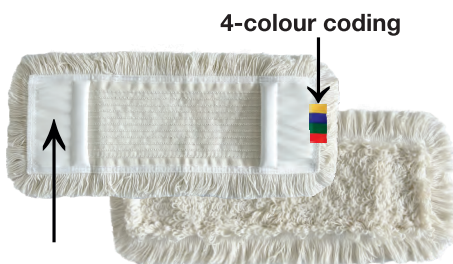

ARCORA®  
GERMANY

### COTTON COVER WITH TASSELLED FRINGES AND SPECIAL WEAVING TECHNOLOGY

Special cover sheet 50/50  
with SPECIAL WEAVING TECHNOLOGY

Pocket material made from  
100% polyester with inserts  
Tear-resistant & water-permeable

Do not use fabric softener  
Wash according to type

#### SPECIFICATIONS

<b>Yarn mixture:</b>	50% cotton, 50% polyester
<b>Yarn colour:</b>	NATURAL
<b>Cover sheet:</b>	50% fine cotton and 50% polyester
<b>Edging tape:</b>	100% polyester, WHITE
<b>Pocket material:</b>	100% polyester, PERMEABLE TO WATER
<b>Shrinkage value:</b>	3-4%
<b>Washing label:</b>	Embroidery label in WHITE, embroidered on 2 sides
<b>4-colour coding:</b>	BLUE, GREEN, YELLOW, RED

<b>Measurements:</b>	40 cm	50 cm
<b>Weight:</b>	ca. 150 g	ca. 195 g

<b>Unit:</b>	75 pcs.	50 pcs.
<b>Item-no.:</b>	<b>FMO40WE</b>	<b>FMO50WE</b>

Developed in Germany.  
Made to the highest standards.

#### SPECIAL FEATURES

The mop cover is made from 100% recycled yarns (50% cotton, 50% polyester). The cover sheet consists of 50% premium cotton and 50% polyester. This balanced blend ensures optimal absorbency of the mop cover and is therefore highly recommended. Many competitors, on the other hand, manufacture their cover sheets from 100% polyester. With the FUTURE MOPP, the loops are anchored directly into the cover sheet in a single step using a **special weaving technique**. This innovative weaving process ensures a particularly long service life for the mop cover and makes it **ideal for use in laundries**. The pockets are made of 100% woven, water-permeable polyester and are additionally reinforced with a sponge insert, which helps the holder glide smoothly.

#### PROPERTIES

The **high-quality cotton cover with tasselled fringes** offers above-average durability thanks to its special tufting process. The even distribution of loops over the entire surface enables excellent dirt and water absorption as well as ideal gliding properties.

- Optimum dirt and water absorption
- Very good gliding properties for fatigue-free working
- Tear-resistant and water-permeable polyester pockets
- Extra long life thanks to high-quality manufacturing process and special weaving technology

#### APPLICATION

Can be used both dry and wet on smooth, coated and uncoated floor coverings.

#### APPLICATION AREA

For maintenance cleaning, basic cleaning and wet and dry cleaning of all surfaces, such as resilient coverings, hard coverings, porcelain stoneware, stone floors, tiles, laminate floors and ideal for smooth floor coverings. Particularly suitable for use in industry, production, supermarkets and public facilities, building cleaning and healthcare.

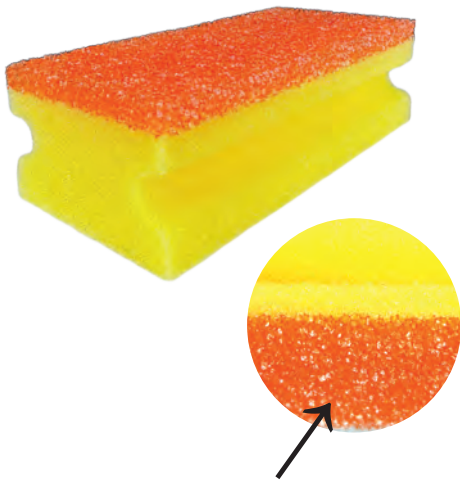

#### WASHING RECOMMENDATION

Wash before first use. Recommended washing temperature: 60 °C (max. 95 °C). Do not use fabric softener or bleach. Wash with similar colors. Tumble dry at max. 80 °C.

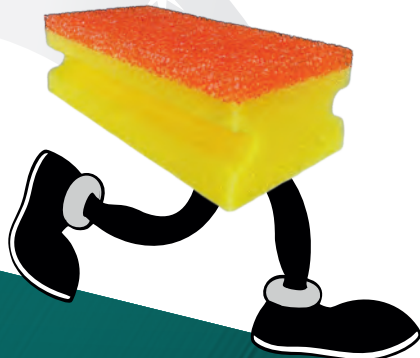

Other edging tape colours and looped fringes available on request!

## THE NEW GENERATION CLEANING SPONGE

35 D. **LONGLIFE**  
Sponge polyester content  
**SCRATCH-FREE application**

### SPECIFICATIONS

<b>Colour:</b>	BLUE-ORANGE, GREEN-ORANGE, YELLOW-ORANGE, PINK-ORANGE
<b>Size:</b>	150 x 70 x 45 mm
<b>Weight:</b>	approx. 12 g/Sponge
<b>Unit:</b>	10 x 10= 100 pcs
<b>Item-no.:</b>	LLS15070BLO  LLS15070GRO  LLS15070GEO  LLS15070ROO 

**DURABLE -  
SCRATCH-FREE-  
MULTI-TALENTED!**

### PROPERTIES

The new generation cleaning sponge, the **LONGLIFE SPONGE**, is multifunctional removing stubborn dirt with ease. The tougher, more durable **LONGLIFE** orange side can be used to clean any surface without scratching it. Thanks to the **LONGLIFE** polyester content with its strong, closed structure, the tougher orange side has **very good surface resistance** and is resilient to all types of abrasion and bits do not break off. Compared to other conventional felted ARCORA® sponges, the **LONGLIFE** sponge is significantly **more durable**. An environmentally friendly, high-quality and efficient all-rounder that can replace other ARCORA® sponges with different fleece sides.

- **SCRATCH-FREE on any surface**
- **Versatile: No need to use different sponges**
- **Excellent dirt-removing power thanks to the LONGLIFE orange side**
- **High dirt and water absorption**
- **Antibacterial properties**
- **Durable & robust**
- **With grip to protect hands and fingernails**

### APPLICATION

For damp and wet cleaning of all surfaces, e.g. pots, pans, metal containers, tiles, stainless steel surfaces and even glass or mirrors. Thanks to the closed cell structure, the **LONGLIFE** side does not absorb dirt or oil and can be easily cleaned with water.

### APPLICATION AREA

Particularly suitable for use in **HoReCa** establishments such as hotels, restaurants, pubs, catering and party services, as well as in office buildings, airports, aircraft interiors, shopping centers, clinics, and public transportation (buses and trains).

# SCRUB & CLEAN 2IN1

ARCORA®  
GERMANY

## THE ALTERNATIVE TO THE CLEANING SPONGE

### SPECIFICATIONS

<b>Yarn blend:</b>	80% polyester 20% polyamide
<b>Colour:</b>	BLUE, GREEN, YELLOW, PINK, GREY
<b>Washing label:</b>	Satin-Label WHITE
<b>Size:</b>	40x40 cm
<b>Weight:</b>	ca. 45 g/cloth
<b>Unit:</b>	30 x 5= 150 pcs
<b>Item-no.:</b>	ASC4040BL ● ASC4040GR ● ASC4040GE ● ASC4040RO ● ASC4040GU ●

**IDEAL AGAINST  
STUBBORN DIRT AND  
ENCrustATIONS!**

## SCRUB & CLEAN 2IN1

active dirt-removing side

finely textured microfiber side for excellent dirt and water absorption

### PROPERTIES

The SCRUB & CLEAN 2IN1 microfiber cloth is ideal for removing stubborn dirt and encrustations on all non-delicate surfaces during routine cleaning. The active dirt-removing side with bristles loosens even heavy soiling, while the finely textured microfiber side reliably absorbs water and loosened dirt. It is also ideal for wiping down and cleaning delicate surfaces.

- Combination of an active dirt-removing side and a finely textured microfiber side
- Gentle and SCRATCH-FREE on surfaces
- Excellent dirt removal power thanks to abrasive bristle side
- High dirt and water absorption
- For thorough and streak-free cleaning

### APPLICATION

The cloth achieves optimal cleaning results especially in wet/damp condition with ideal dirt removal power.

### APPLICATION AREA

Particularly suitable for use in **HoReCa** establishments such as hotels, restaurants, pubs, catering and party services, as well as in office buildings, airports, aircraft interiors, shopping centers, clinics, and public transportation (buses and trains).

### WASHING RECOMMENDATION

A washing temperature of 60 °C is recommended. The use of fabric softener and bleach should be avoided. In general, it is recommended to wash the product only sorted by type. It is recommended to dry the SCRUB & CLEAN 2IN1 microfiber cloth gently in the microfiber program.

Do not use fabric softener  
Wash according to type

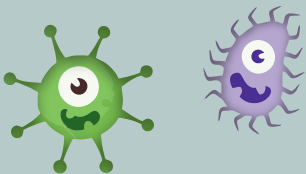

## CLEANLINESS, HYGIENE AND SUSTAINABILITY COMBINED

The concept of sustainability is firmly anchored in the ARCORA® corporate philosophy and plays a significant role in the development of amazing innovations. From the very beginning, sustainability has been a core concern for ARCORA® and has become increasingly important in recent years. In all our products, we always make sure to consider not only the economic aspects but also the social and environmental aspects. We live sustainability every day and define our approach with the guiding principle "Making a Difference for Generations." Driven by its sustainability mindset, ARCORA® develops innovations such as the SCRUB & CLEAN 2IN1 microfiber cloth.

## WHY SCRUB & CLEAN 2IN1 MICROFIBER CLOTH?

Cleaning sponges are used in many areas of daily cleaning. Whether in the sanitary area, in the kitchen or in other areas of maintenance cleaning, the cleaning sponge is used in many places. Depending on use and strain, a cleaning sponge wears out over time and can no longer be used after a certain period of time. The sponges then end up in the garbage can and a new one has to be found.

In addition, the cleaning sponge develops into an object that is densely colonized with germs. A porous surface with a warm and moist climate inside makes the sponge the ideal habitat for microbes. The sponge should therefore be replaced regularly and frequently.

Imagine if there were an alternative to the traditional sponge—one that's more hygienic, lasts longer, and produces significantly less waste.

The alternative is called:

**SCRUB & CLEAN 2IN1**

The innovative microfiber cloth for hygienic cleaning with less waste.

# SCRUB & CLEAN 2IN1

**ARCORA®**  
GERMANY

## FACTS & FIGURES

### washable

can be reused several times, up to 500 wash cycles at 60 °C

### material savings

less materials, plastic film and packaging are required

### CO2 savings

fewer transportation routes

### long product life

high-quality materials ensures a long product life, minimizes waste, supports the sustainable use of resources

### cost savings

as an alternative to conventional cleaning sponges, it enables enormous **cost savings**

### less germ accumulation

sponge should be replaced regularly and frequently

**1 pallet** → 3.600 ARCORA® cleaning sponges

**1 truck** → 33 pallets → 118.800 pcs. ARCORA® cleaning sponges

118.800 pcs. cleaning sponges  $\hat{=}$  792 SCRUB & CLEAN 2IN1 microfiber cloths

1 pallet  
36 boxes= 3.600 pcs  
(1 box: 100 pcs.)

**33 pallets**  
**118.800 sponges**

**792 pcs. SCRUB & CLEAN 2IN1**  
**microfiber cloths**

5 boxes +  
42 pcs. loose= 792 pcs.  
(1 box: 150 pcs.)

**1x SCRUB & CLEAN 2IN1 MICROFIBER CLOTH**  
replaces approx. **150 ARCORA® cleaning sponges!**

- The use of SCRUB & CLEAN 2IN1 cloths would require significantly **less space**
- In addition to the space saving, a significant **cost saving** would be realized
- The **CO2 emissions** caused by trucks would be reduced

# LIMESCALE TRAP

## STAINLESS STEEL

### LIMESCALE TRAP – CHEMICAL-FREE SUPPORT AGAINST LIMESCALE BUILD-UP

#### SPECIFICATIONS

<b>Material :</b>	Knitted and pressed stainless steel
<b>Material Grade:</b>	1.4301
<b>Wire Diameter:</b>	0,23 mm
<b>Outer Diameter:</b>	~ 40 mm
<b>Inner Diameter:</b>	~ 25 mm
<b>Height:</b>	~ 16 mm
<b>Unit:</b>	2 pieces in a recycled polybag 100 x 2 = 200 pieces
<b>Item-no.:</b>	KF4016-2

**The limescale trap made of high-quality stainless steel effectively and sustainably reduces limescale build-up in kettles, boilers, hot water appliances and samovars – COMPLETELY WITHOUT THE USE OF CHEMICALS.**

The fine-mesh structure of the pressed stainless steel acts as a preferred deposition surface for limescale particles. Instead of settling on heating elements or inner surfaces, the limescale crystals are specifically attracted to the limescale trap. This does not prevent limescale formation entirely, but significantly slows it down – resulting in a longer service life for the appliances and consistently high efficiency. For users, this means less limescale build-up inside the device, more efficient heat transfer and longer intervals between necessary descaling. This saves time and energy while also protecting the appliances.

### EFFICIENT SCALE REDUCTION WITHOUT CHEMICALS

The stainless steel is durable, corrosion-resistant and food-safe, making the limescale trap suitable for safe everyday use. It is also reusable, offering a sustainable alternative to chemical descaling agents. **Manufactured in Germany**, the product stands for high quality and reliable workmanship. **The packaging is environmentally friendly, using a recycled polybag.**

- **Effective limescale reduction:** Specifically slows down limescale formation and protects heating elements and internal surfaces from deposits
- **Energy-efficient:** Less limescale on heating elements improves heat transfer and reduces energy consumption
- **Chemical-free & environmentally friendly:** Purely mechanical operation – no additives, no residues
- **Reusable:** Easy to tap out or clean (e.g. with citric acid)
- **Extended descaling intervals:** Reduced maintenance effort for appliances

The pressed stainless steel element acts as a so-called “deposition surface” for limescale crystals. Its special wire structure creates a large surface area where limescale preferentially accumulates. As a result, limescale does not adhere to sensitive components such as heating elements or container walls. The limescale trap does not remove existing limescale and does not completely prevent limescale formation, but significantly reduces and slows it down.

#### APPLICATION

The limescale trap is placed directly into the respective container and works continuously during use. It is important that the appliance is as free of limescale as possible before first use, as existing deposits are not removed. To maintain full performance, the limescale trap should be tapped out regularly or cleaned when necessary, for example by soaking it in citric acid.

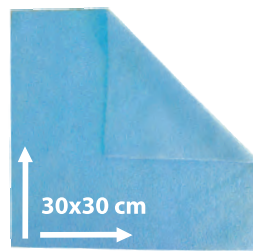

**A simple, durable and chemical-free solution to reduce limescale build-up and extend the lifespan of your appliances.**

# IN-BOX MICROFIBER CLOTH

**ARCORA®**  
GERMANY

**ALWAYS AT HAND! THE SUSTAINABLE SOLUTION FOR EFFICIENT CLEANING**

### SPECIFICATIONS

- Yarn mixture:** 80% Polyester  
20% Polyamide
- Colour:** BLUE, GREEN, YELLOW, PINK, GREY
- Cloth size:** 30x30 cm
- Content:** 50 cloths
- Weight:** 200 g/m<sup>2</sup>

The proven **SUPER-LINE 300** microfiber cloth sets new standards in cleaning performance: featuring innovative Superpol fiber and advanced material technology, it delivers even higher cleaning efficiency and exceptional durability. It is ideally suited for daily maintenance cleaning and can be used on virtually all surfaces. Thanks to hot-cut technology (wave cut), the cloth has particularly clean and durable edges and retains its shape even under intensive use. As a **premium microfiber cloth** specially developed for the healthcare sector, the SUPER-LINE meets the highest standards of quality and hygiene. The innovative microfiber hot-cut technology also ensures **uniform preparation** of the cloths. For this reason, the SUPER-LINE 300 premium microfiber cloth is deliberately manufactured without an overlock edge.

- Very high water absorption
- Suitable for almost all surfaces
- Streak-free cleaning results
- Lint-free and shape-retaining
- Exceptionally durable thanks to ultrasonic-cut edges
- Uniform preparation of the cloths

# NON-WOVEN CLOTHS

GENERAL PURPOSE &  
FLOOR CLOTH

**ARCORA®**  
NON-WOVEN

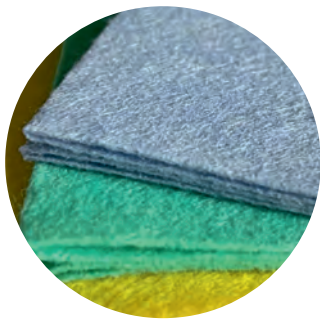

**STANDARD  
100**

The label identifies textiles that have undergone comprehensive testing for harmful substances. It guarantees a high level of product safety, from the fibre to the finished end product. Every item with this label has successfully passed independent laboratory tests for harmful substances.

## NON-WOVEN CLOTHS - POWERFUL CLEANING, VERSATILE USE

### NON-WOVEN GENERAL PURPOSE CLOTH

#### SPECIFICATIONS

**Yarn mixture:** Viscose, Polyester, Polypropylene  
**Colour:** BLUE, GREEN, YELLOW, PINK, WHITE  
**Cloth size:** 36x40 cm  
**Weight:** 110 g/m<sup>2</sup>

**Unit:** 20 x 10 = 200 pcs

**Item-no.:** VA3640BL110 ●  
VA3640GR110 ●  
VA3640GE110 ●  
VA3640RO110 ●  
VA3640WE110 ○

The non-woven general purpose cloths are universally applicable, lint-free cleaning cloths that impress with their high quality, durability and versatility. Whether in the professional cleaning sector, in catering, the hotel industry or in healthcare, the general purpose cloths are suitable for almost all surfaces and cleaning tasks. The cloths reliably absorb dirt, dust and liquids and are characterised by their high absorbency and excellent dirt pick-up. They are also washable and reusable, making them an economical and sustainable solution for everyday use.

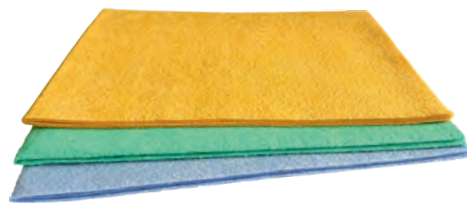

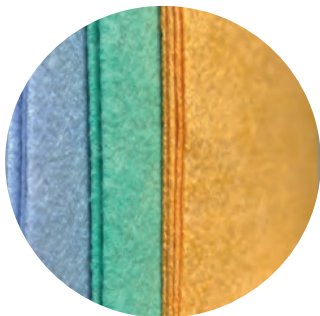

- For universal use: For almost all surfaces
- Suitable for dry, damp and wet applications as well as for **disinfection**
- Highly absorbent: Excellent dirt pick-up with no linting

- Washable and reusable
- Very robust and durable
- OEKO-TEX® Standard 100 certified

Do not use fabric softener  
Wash according to type

### NON-WOVEN FLOOR CLOTH

#### SPECIFICATIONS

**Yarn mixture:** Viscose, Polyester, Polypropylene  
**Colour:** BLUE, GREEN, ORANGE  
**Cloth size:** 50x70 cm  
**Weight:** 160 g/m<sup>2</sup>

**Unit:** 100 pcs

**Item-no.:** VB5070BL160 ●  
VB5070GR160 ●  
VB5070OR160 ●

The non-woven floor cloths are specially designed for cleaning floors and impress with their high absorbency, excellent dirt pick-up and robust and durable quality. They are suitable for almost all smooth floor surfaces and can be used dry, damp or wet. Their washability and reusability make them an economical and sustainable solution for daily cleaning.

- Highly absorbent floor cloth: reliably absorbs liquids
- High dirt pick-up: Cleans smooth floor surfaces effectively and lint-free

- Washable, highly durable and long-lasting
- OEKO-TEX® Standard 100 certified

**Available in additional sizes and weights upon request.**

**\*COMING  
SOON**

### SIZE-ADJUSTABLE MOP HOLDER FOR PROFESSIONAL CLEANING

**Stepless adjustment  
from 37,5 to 50 cm**

#### SPECIFICATIONS

**Colour:** BLACK  
**Size:** 37,5-50 cm individually adjustable  
**Unit:** 5 pcs  
**Item-no.:** FMH3850

### THE PROBLEM SOLVER FOR SHRUNKEN MOP COVERS

#### PROPERTIES

The **size-adjustable FLEX-ON** mop holder, made from **recycled materials**, is an innovative solution for professional cleaning. It adapts flexibly to all standard mop covers and can be adjusted continuously **from 37,5 to 50 cm**. This means that mop covers that have shrunk due to washing, drying or production deviations can still be used, significantly reducing waste and material costs.

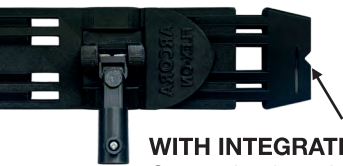

- Replaces several holder sizes (40 and 50 cm)
- Stepless adjustment with stainless steel screws
- Compatible with all standard mop covers and handles/telescopic handles
- Made from recycled materials (**ECOBLOCK TECHNOLOGY**)  
→ durable plastic
- Minimises storage space, costs and waste
- Shrunk mop covers no longer need to be sorted and disposed of
- With integrated adapter as anti-theft protection to prevent loss

#### APPLICATION

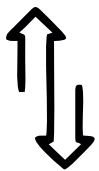

The **FLEX-ON** mop holder can be easily adjusted using two stainless steel screws. It is no longer necessary to change the holder for different mop covers. The V-shaped spreader ensures that the holder can be easily inserted into the pockets.

#### APPLICATION AREA

The **FLEX-ON** mop holder is the ideal solution for daily cleaning. Whether in building cleaning, healthcare or public facilities, it impresses with its genuine added value.

**WITH INTEGRATED ADAPTER:**  
Customised production as anti-theft protection

**Size adjustable 37,5-50 cm**  
Replaces multiple holder sizes

**Universally compatible**  
For all standard mop covers and handles

**Sustainable**  
Made from recycled, durable plastic

**Cost and waste savings**  
Shrunk mop covers can still be used

**Space saving**  
One holder for all mop covers

**Cradle-to-Cradle-concept:** In future we plan to introduce a cradle-to-cradle concept in combination with a deposit system. The aim is to enable the return of the mop holder so that the plastic parts it contains can be reused. This closes the material cycle and makes a further contribution to resource conservation and sustainable product use. The deposit system we use when selling the mop holder creates an incentive for our customers to return the mop holder after use in order to get their deposit back.

# ECOBBLACK 70

## SERVICE TROLLEY

**ARCORA®**  
GERMANY

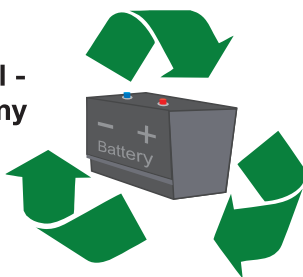

## MADE FROM RECYCLED BATTERY CASES

With **ECOBBLACK®TECHNOLOGY**, we've redefined how valuable resources can be recovered and repurposed.

At the core of this innovation lies a unique recycling process: empty and discarded battery housings - once considered hazardous waste - are carefully collected, processed, and transformed into a high-quality, robust plastic. This recycled material forms the structural framework of our cleaning trolleys and vacuum cleaners, giving new life to what would otherwise contribute to environmental pollution. By avoiding the use of virgin plastic and instead turning old battery casings into durable components, we not only reduce waste, but also significantly lower CO2 emissions. The ECOBLACK® line stands out with its exceptional durability, user-friendly design, and versatile product range tailored to various cleaning requirements. Every product in this line reflects our belief that sustainability and performance should go hand in hand.

**ECOBBLACK® is more than just a material - it's our contribution to a circular economy and a cleaner planet.**

# ECO BLACK 70

### ARCORA® DIAMOND CLEAN TECHNOLOGY – THE FUTURE OF FLOOR CARE

In times of so much brand diversity, one thing counts above all: creating added value, with convincing solutions. With the innovative **Diamond Clean Technology** ARCORA® offers a complete solution for cleaning, care and polishing of all floor types when used with scrubber-dryer machines and ultra-high-speed machines. Since 1992, ARCORA® has been developing modern floor care systems. Our **Diamond Clean Technology** cleans and polishes floors in one step, **without any chemical** additives.

Made from 100% recycled polyester and natural hair

### THREE FUNCTIONS, ONE PAD – MAXIMUM EFFICIENCY

Unlike conventional floor pads which only clean, the **SUNSHINE ProPAD 3IN1** delivers brilliant results without any additional steps. It is ideal for efficient and thorough maintenance cleaning with impressive sustainable performance. With the **ARCORA® SUNSHINE ProPAD 3IN1** you can effortlessly clean up to **65,000 m²** of floor space – efficiently, sustainably and reliably.

- ✔ **Multiple steps combined in one pad: cleaning, polishing and ultra-high-speed polishing 3IN1**  
Fast, efficient workflow. Only one pad instead of three.
- ✔ **Cleaning and polishing in one step**  
For coated and uncoated floors, scrubber-dryers with **150-600 rpm**
- ✔ **Ultra-high-speed polishing**  
High-speed polishing with machines from **1500 to 3000 rpm**
- ✔ **4-6 times longer lasting and up to 80% cost savings**  
Lower consumables, less storage space and labour required
- ✔ **Environmentally friendly cleaning without chemicals – ONLY WITH WATER**  
Works exclusively with water. Safe on users and floors.
- ✔ **Brilliant results**  
Visible after the very first application.

**Special sizes are available on request.**

#### APPLICATION

The **ARCORA® SUNSHINE ProPAD 3IN1** offers outstanding cleaning performance and efficiency. It thoroughly cleans and polishes coated and uncoated floors, delivering perfectly maintained surfaces thanks to its unique **12,000-grit structure**. Whether for wet cleaning, dry use, or high-speed polishing, the **SUNSHINE ProPAD 3IN1** offers versatile applications and is compatible with scrubber dryers (**150–600 rpm**), ultra-high-speed polishing machines (**UHS 1500–3000 rpm**), as well as oscillating and orbital machines. Ideal for the future of cleaning: The **SUNSHINE ProPAD 3IN1** is perfectly suited for use with **scrubbing robots**, delivering highly efficient, automated floor care at the highest standard.

#### APPLICATION AREA

Ideal for use in commercial, industrial and public areas such as shopping malls, supermarkets and airports. Suitable for coated and uncoated floors, such as concrete, natural stone, terrazzo, marble, granite, PVC and ceramic.

# SUNSHINE

## FLOOR CARE SYSTEMS

**ARCORA®**  
GERMANY

**MORE SHINE WITH LESS EFFORT!**

### RENOVATING, POLISHING AND CLEANING MARBLE FLOORS

Made from  
100% recycled polyester  
and natural hair

The **ARCORA® SUNSHINE MARBLE PAD** is the perfect solution for renovating, cleaning, and high-gloss polishing of soft and, in particular, **hard** marble, natural stone, and artificial stone floors. It is exclusively designed for wet use and delivers a brilliant high-gloss finish with an elegant wet-look, **without orange peel**. With the MARBLE PAD, up to 1,500 m<sup>2</sup> of floor surface can be processed efficiently, sustainably, and with minimal effort. Thanks to its outstanding performance and superior polishing results, it is the preferred choice of leading stone floor restoration professionals.

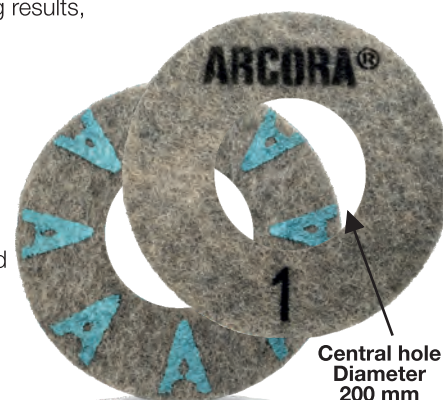

### ARCORA® SUNSHINE MARBLE PAD

**Available in 17"/432 mm with the following grain sizes:**  
1+ = 200 K, 1 = 400 K, 2 = 800 K, 3 = 1500 K, 4 = 3000 K, 5 = 5000 K  
Packaging unit: 5 pieces per grain size in carton

On request, the pads can be custom-made in diameters ranging from 9 to 22 inches.

#### APPLICATION/APPLICATION AREA

The **ARCORA® SUNSHINE MARBLE PAD** is ideal for refurbishing, cleaning and polishing all hard marble, natural and artificial stone floors. It is used with a heavy-duty single-disc machine (150–400 rpm) and ensures perfect results. **Routine cleaning/simple maintenance:** After intensive cleaning, maintenance cleaning can be carried out daily with the ARCORA® SUNSHINE ProPAD 3IN1 with 12,000 grit.

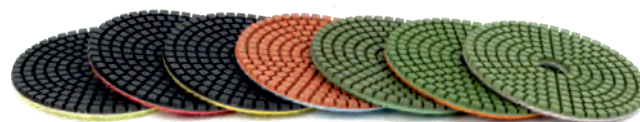

### RESTORING, POLISHING AND MAINTAINING GRANITE FLOORS

### ARCORA® SUNSHINE GRANITE PAD

The **ARCORA® SUNSHINE GRANITE PAD** is ideal for restoring, polishing and maintaining granite and concrete floors. The pad can be used to gently restore and maintain up to 300 m<sup>2</sup> of granite flooring. Leaves a high-gloss surface without orange peel.

**Available in 4"/100 mm with the following grain sizes:**  
50 K, 100 K, 200 K, 400 K, 800 K, 1500 K, 3000 K  
Packaging unit: 10 pieces per grain size in carton

#### APPLICATION/APPLICATION AREA

The **ARCORA® SUNSHINE GRANITE PAD** is the ideal solution for restoring, polishing and maintaining granite and concrete floors. It can be used with both heavy-duty single-disc machines with FEMALE VELCRO (150–400 rpm) and scrubber-dryers with MALE VELCRO, ensuring a consistently flawless result. Five to six granite pads can be attached to the machine per system. After intensive cleaning, maintenance cleaning can be carried out daily with the ARCORA® SUNSHINE ProPAD 3IN1 with 12,000 grit.

#### FEMALE VELCRO

For use with single-disc machines  
in combination with pad plates

#### MALE VELCRO

For use with scrubber-dryers  
in combination with Superpad

### ARCORA® DIAMOND STRIP TECHNOLOGY – THE NEW DIMENSION OF DEEP CLEANING

The **SUNSHINE ProPAD 200** is a high-performance solution for the thorough removal of dirt, coatings, and old maintenance films from all types of coated floor coverings. Designed for demanding cleaning tasks, this high-performance pad combines innovative materials with maximum efficiency. Thanks to its special composition of recycled fibers and high-quality polycrystalline abrasive particles, the ProPAD 200 reliably removes stubborn dirt, wax layers, floor coatings, and even deeply embedded scratches. At the same time, it prepares floors optimally for subsequent coatings or maintenance treatments.

The **ProPAD 200** enables effective deep cleaning using water alone – reducing or even eliminating the need for chemicals. This not only lowers cleaning agent costs but also saves time and labor. With an area performance of up to **6,000 m<sup>2</sup>** under optimal conditions, the ProPAD 200 delivers outstanding results when used with single-disc machines (including heavy-duty models), scrubber dryers, as well as eccentric and orbital machines.

Made from  
100 % recycled fibers

### DEEP CLEANING AND INTENSIVE CLEANING AT THE HIGHEST LEVEL

- ✓ Reliably removes coatings, wax, and stubborn dirt
- ✓ Ideal for deep cleaning and floor surface preparation
- ✓ Long service life and high area coverage
- ✓ Environmentally friendly – can be used **WITH WATER ONLY**
- ✓ Reduces the use of chemicals, time, and costs
- ✓ Suitable for various machine types

Item-no.	Size	Unit

Central hole Diameter  
85 mm

Area performance up to 6.000 m<sup>2</sup>  
Grain size 200

#### APPLICATION/APPLICATION AREA

The **SUNSHINE ProPAD 200** has been specifically developed for deep cleaning and intensive floor restoration. It is ideally suited for removing stubborn dirt, old coatings, wax and maintenance films, as well as deposits on coated hard floors. Typical areas of application include commercial and industrial environments such as office buildings, shopping centers, hospitals, hotels, and production facilities—wherever maximum cleaning performance is required.

The **ProPAD 200** is perfectly suited for use with single-disc machines (including heavy-duty models), scrubber dryers, eccentric machines, and orbital machines, delivering reliable cleaning results at a recommended speed of **150–400 rpm**.

It is designed exclusively for wet use and is **NOT** suitable for use with high-speed polishing machines (burnishers) or for dry applications.

# ARCORA® PU-PAD *Light*

ARCORA®  
GERMANY

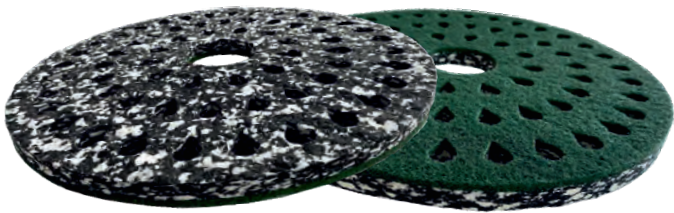

## WHY ARCORA® PU-PAD? *Light*

The environmentally friendly pad with waterdrop perforation system is the ideal pad for maintenance cleaning, **especially with smaller scrubber drier machines.**

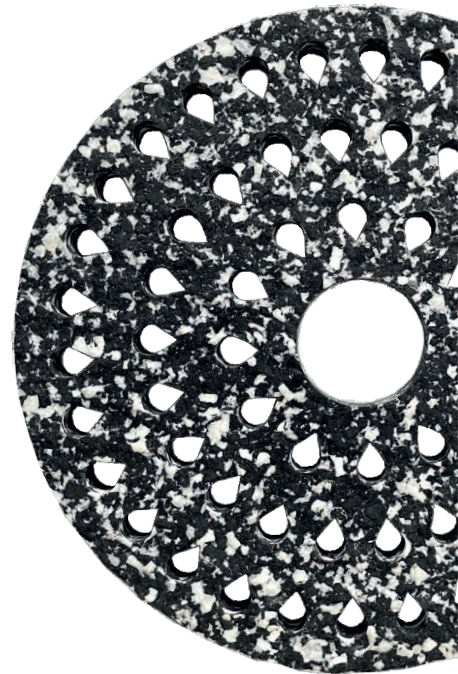

### The ARCORA® PU-PAD Light...

- achieves a maintenance cleaning performance of up to **100,000 m<sup>2</sup>**.
- is perfect for **smaller scrubber drier machines.**
- is especially **robust and durable** due to the composition of polyester, polyether bonded with polyurethane.
- is applicable on all types of water-resistant elastic and hard floor coverings, even on porcelain stoneware floors and safety floors up to R13.
- has a **higher water absorption** than conventional pads.
- is **environmentally friendly** due to the exclusive use of recycled products.

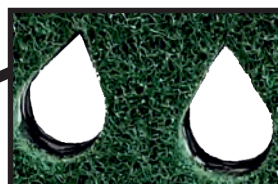

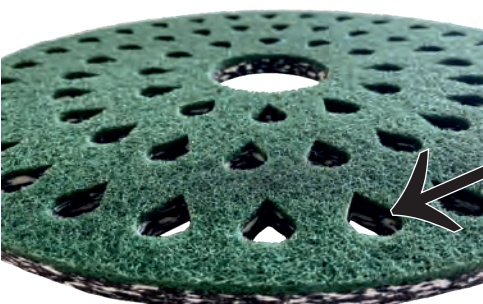

### The ARCORA® PU-PAD Light...

- less pressure needed especially on **smaller-battery scrubber-drier machines** with lower Ah battery, e.g. 56 Ah, enabling longer running time.
- lengthens the running time of lithium batteries.
- reduces the pressure on motors and batteries enabling a higher m<sup>2</sup> performance.
- less pressure on small cable scrubber-drier motors.

### What makes the ARCORA® PU-PAD Light special?

- Due to the applied water drop perforation, the reduction in friction compounds the plus/minus effect without damaging the floor → gentle but effective cleaning
- The perforation technique enables better water distribution and dirt absorption
- To protect the environment, the water drop system reduces the amount of water needed
- Due to the die-cutting technology of the PU PAD Light, the machine glides more easily over the floor

#### Waterdrop System

##### PLUS-MINUS effect

- Improved gliding over the floor
- Better dirt absorption
- Better water distribution & saving

## Application / Application areas

For maintenance cleaning of all floor coverings, e.g. tiles, stone floors, porcelain stoneware, concrete, vinyl, PVC and linoleum floors. **Perfectly suitable for use with smaller scrubber-drier machines.** The pad side is used for cleaning **all resilient coverings and hard floors**. For more stubborn dirt, the pad can be turned over and the pad back (green) can be used like a normal cleaning pad.

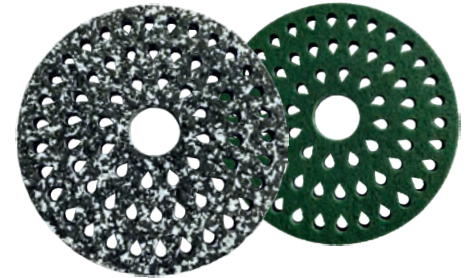

## For the sake of the environment

The ARCORA®PU-PAD Light stands out thanks to its particularly sustainable material selection and actively contributes to the conservation of resources. Carefully chosen recycled materials are used in its production, helping to reduce the need for virgin raw materials. This responsible approach supports more environmentally friendly manufacturing and contributes to a circular economy. At the same time, the product meets high quality standards, combining strong performance with a mindful use of natural resources.

# PRO1PLUS

## VACUUM CLEANER

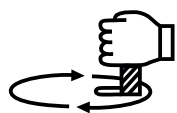

In close collaboration with experts from the hotel industry, building cleaning, and industrial sectors, we have combined all our expertise to develop a dry vacuum cleaner that sets new standards: the **PRO1PLUS**. Reliable, powerful, and user-friendly, it combines maximum efficiency with outstanding ease of use.

A special thanks goes to our customers: through their valuable experience and continuous feedback, the **PRO1PLUS** has become exactly what it is today, a perfectly tailored solution for professional requirements. Developed in partnership with over 25 internationally operating hotels and their **housekeeping departments**, we were able to directly incorporate real-world needs and consistently implement them in the **PRO1PLUS**.

The PRO1PLUS is a powerful and reliable dry vacuum cleaner, ideal for large areas such as offices, hotels, and restaurants, as well as for smaller spaces like medical practices, shops, or private households.

Its robust, modern design combined with practical, user-focused solutions ensures efficient operation with low running costs.

manual cable rewinder

auxiliary air valve

power switch button

accessories storage

power button

parking position for floor nozzle

### PROPERTIES

- robust and stable construction due to shockproof materials and metal housing
- with power switching (1200/750 W), for an optimum adaptation even on high-pile carpets
- 15 m power cable in signal colour orange with integrated manual cable winder for safe and practical cable storage
- airflow control valve on the handle
- rubber-tired wheels for floor, wall and furniture protection
- exhaust air filter cassette for cleaning exhausted air
- auxiliary air valve for cooling the engine, especially important for continuous use and warmer temperatures
- durable motor for high suction power with 2 stages (1200/750 W)
- with large, handy handle for easy and safe transport
- switchable floor nozzle to allow adaptation to different floor coverings
- parking system for floor nozzle to ensure safe and space-saving storage
- including floor nozzle, suction hose, 2 metal suction pipes, crevice nozzle, upholstery nozzle, brush nozzle and 2 fleece filter bags (10 litres)

## VACUUM CLEANER

**ARCORA®**  
GERMANY

Wall and furniture protection strip made of rubber

Item-no.: PRO1PLUS

The PRO1PLUS is supplied with a complete set of accessories

TECHNICAL DATA	
<b>Voltage</b>	220-240 V / 50 Hz
<b>Power</b>	750 W / 1200 W
<b>EPA filter</b>	EPA10 / HEPA13
<b>Airflow rating</b>	53 l/sec.
<b>Vacuum</b>	27/29 kPa
<b>Working width bottom nozzle</b>	275 mm
<b>Noise level</b>	67 dB
<b>Container capacity</b>	10 l
<b>Power supply cable</b>	15 m
<b>Effective radius</b>	19 m
<b>Hose length</b>	2,8 m
<b>Container material</b>	shockproof metal housing
<b>Dust bag capacity</b>	10 l
<b>Suction pipe diameter</b>	36 mm
<b>Suction hose diameter</b>	36 mm
<b>Weight without accessories</b>	7 kg
<b>Dimensions</b>	42x35x32 cm
<b>WEEE-Reg.-No.</b>	DE 82514658

Exhaust air filter cassette for cleaning exhausted air

Tear-resistant, 3-layer fleece filter bag for optimal dust and dirt absorption

Item-no.: 01313

### ACCESSORIES INCLUDING

- 1 Floor nozzle** | 275 mm working width | Ø 36 mm  
Noise-reduced vacuum cleaner nozzle with high suction power. The floor nozzle is equipped with a brush for parquet or stone.
- 2 Suction hose complete** | 2,8 m long | Ø 36 mm  
Flexible hose with airflow control valve to adjust suction power.
- 3 Upholstery nozzle** | Ø 36 mm  
For vacuuming upholstered furniture, cushions etc.
- 4 Crevice nozzle** | Ø 36 mm  
For vacuuming joints, corners, edges or niches.
- 5 Brush nozzle** | Ø 36 mm  
For vacuuming uneven surfaces, e.g. profiled strips.
- 6 Suction tube** | Ø 36 mm | 2-part  
Plug the metal pipes together and connect them to the suction hose and any accessories.
- 7 Fleece filter bag** | 10 l | 3-ply  
Tear-resistant, 3-layer fleece filter bag for the optimal and safe dust and dirt absorption.

Item-no.: 01307

Item-no.: 01308

Item-no.: 01309

Item-no.: 01310

Item-no.: 01311

Item-no.: 01312

Item-no.: 01313

### EXCLUSIVE ACCESSORIES

**Turbo nozzle** | 275 mm working width | Ø 36 mm  
Turbo nozzle can be used to achieve a very good result in carpet cleaning. Compared to a standard floor nozzle which cleans the surface, a turbo-nozzle guarantees deep cleaning due to integrated brush roller. This enables deep-seated dirt removal from the carpet. In addition, the brushing roller raises the carpet's pile.

Item-no.: TB-P1-M5

With rotating brush roller

### Fragrance granules | LEMON or CLASSIC

For a pleasant and fresh room fragrance, we recommend using the fragrance granules.

#### Application

Spread a sealing cap of granulate (approx. 3-5 g) on the floor and vacuum into the fleece filter bag with the floor nozzle. Creates a pleasant and long-lasting fragrance during and after vacuuming.

**CLASSIC**

Item-no.: 01235

Glass with 52 g granulate

**LEMON**

Item-no.: 01237

Glass with 52 g granulate

# SD430SET

## SINGLE DISC MACHINE

**ARCORA®**  
GERMANY

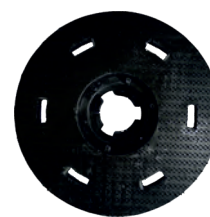

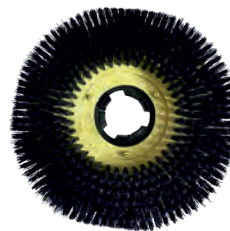

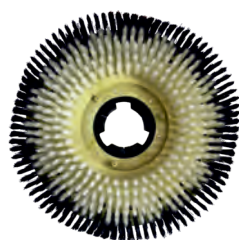

Powerful and versatile **SD430** single-disc machine. Particularly suitable for intensive cleaning of all types of floor coverings as well as for light polishing work. Thanks to its large rubber-coated wheels, it is especially easy and convenient to transport. The scope of delivery includes a comprehensive set of accessories for all common floor surfaces.

The machine stands out for its high-quality workmanship and durability. A powerful **copper motor** has been used to ensure an exceptionally long service life and reliable performance. In addition, the ergonomically designed handle enables comfortable, fatigue-free operation, even during extended use. The robust construction underlines its high quality and guarantees long-term usability.

- Robust planetary gearbox
- High-quality **copper motor** for maximum durability
- Ergonomic handle for fatigue-free operation
- Robust construction for long-term use
- Complete accessory set for all surfaces
- 13-litre fresh water tank

Suitable for deep cleaning, restoration of protective coatings, periodic and routine cleaning, as well as for removing cleaning and polishing residues. In combination with ARCORA super pads, cleaning and polishing pads, abrasive pads, UHS pads, and microfiber pads, the machine can be optimally used on a wide variety of floor surfaces.

**Included in delivery:**  
scrubbing brush, carpet cleaning brush,  
pad holder and fresh-water tank

### TECHNICAL DATA

Power	1100 W
Voltage	220-240 V/ 50-60 Hz
Brush speed	154 rpm
Working width	17"/ 432 mm
Noise level	≤ 54 dB
Water tank	13 l
Cable length	12 m
Weight without accessories	39 kg
Weight with accessories	45,5 kg

**Item-no.: SD430SET**  
**Unit: 1 Set**

# HEAVY DUTY HD430

## SINGLE DISC MACHINE

The **HD430** is a robust and versatile single-disc machine, ideally suited for deep cleaning and restoration work on a wide range of floor surfaces. The durable planetary gearbox ensures reliable power transmission and provides high operational safety in daily use. Two additional weights of 17 kg each increase the contact pressure, enabling particularly effective results during intensive cleaning tasks. Thanks to the large transport wheels, the machine can be moved comfortably and effortlessly.

- Robust planetary gearbox
- 15-liter fresh water tank
- 2 x 17 kg additional weights
- Large transport wheels
- Versatile use on various floor surfaces

The **HD430** is ideally suited for deep cleaning, periodic cleaning, and intensive cleaning tasks. Thanks to its powerful design, it delivers outstanding results even on heavily soiled floor surfaces. It is also suitable for the restoration of protective coatings and spray cleaning applications.

In combination with ARCORA SUNSHINE floor care systems, it provides an optimal solution for professional cleaning results. With optional additional weights and a powerful motor (2.5 HP / 1800 W), the machine is also perfectly suited for stone restoration using diamond pads as well as for the intensive cleaning of heavily soiled floors.

**Item-no.: HD430SET**  
**Unit: 1 Set**

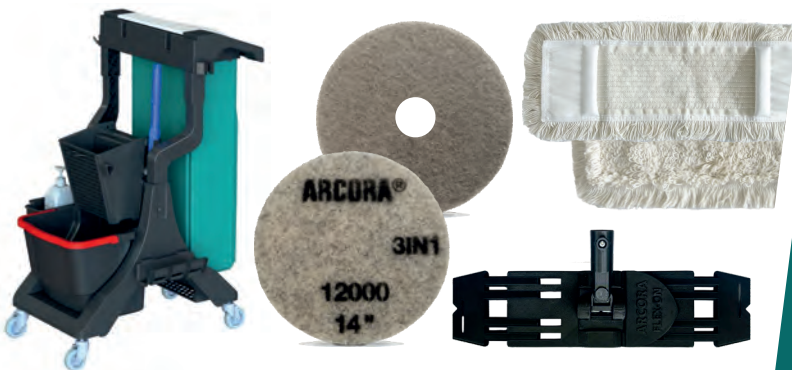

**Included in delivery:**

TECHNICAL DATA	
<b>Power</b>	2.5 HP / 1800 W
<b>Voltage</b>	220-240 V/ 50-60 Hz
<b>Brush speed</b>	176 rpm
<b>Working width</b>	18"= 457 mm
<b>Water tank</b>	15 l
<b>Cable length</b>	12 m
<b>Dimensions</b>	59 x 45 x 130 cm
<b>Machine with accessories and extra weight</b>	47+34= 81 kg

Your partner when it comes to professional cleaning.
