

FLOOR - INTENSIVE CLEANER

ARCOMAT®

INDUSTRIAL AND MACHINE CLEANER

PROPERTIES

- Ideal for maintenance cleaning in supermarkets and shopping arcades
- For machine cleaning and care of all alkaline and water-resistant hard coverings.
- Particularly cleaning-active due to special surfactants and alkaline structure
- Cleans and maintains in one step
- Antistatic and dirt-repellent protective film
- Particularly productive and extremely economical

APPLICATION AREAS

For machine cleaning and care of all alkali- and water-resistant hard floor coverings made of PVC, plastic, artificial or natural stone and industrial floor coverings in production and storage areas, workshops, supermarkets, shopping arcades, canteens and other large-scale projects.

Check material compatibility in advance. We accept no liability for damage caused by improper application.

APPLICATION

Machine:

Light soiling: Dilution 15-30 ml to 10 litres of water.

Normal soiling: Dilution 40-100 ml to 10 litres of water.

Heavy soiling: Dilution 100-200 ml to 10 litres of water.

For heavy soiling, apply a stretching agent. The cleaning performance can be significantly improved by using coordinated scouring pads.

Manual:

Depending on the degree of soiling, dilute 400-800 ml to 10 litres of water; work in a 2-step wiping process.
