

MOP COVERS

MULTI MOP WHITE

Cotton cover

MADE IN EEC

SPECIFICATIONS

Yarn blend:	70% cotton, 30% polyester
Yarn color:	NATURE
Cover:	50% fine cotton and 50% polyester
Binding:	100% Polyester, WHITE
Pocket material:	100% Polyester
Shrinkage value:	3-4%
Washing label:	Embroidery Label in WHITE, printed on 2 sides

Special
Cover page 50/50

Bag material made of
100% polyester with inserts
Tear resistant & water permeable

Do not use fabric softener
Wash according to type

Measures:	40 cm	50 cm
Weight:	approx. 160 g	approx. 200 g
Unit:	75 pcs	50 pcs
Art.-No.:	EMM40	EMM50

SPECIAL FEATURES

The top sheet is made of 50% fine cotton and 50% polyester. In order to optimal absorbency of the cover, this mixing ratio is recommended. Many market competitors produce this cover sheet from 100% polyester.

The material of the pockets is made of 100% woven polyester and reinforced with a sponge insert to support the sliding of the holder.

PROPERTIES

The cotton cover offers above-average durability thanks to its special tufting process whereby the loops are firmly anchored in the cover sheet. The even distribution of loops over the entire surface allows for high dirt and water absorption as well as ideal gliding properties.

- Optimum dirt and water absorption
- High area output thanks to higher grammage
- Very good gliding properties for fatigue-free work
- Tear-resistant and water-permeable polyester pockets
- Long service life thanks to high-quality manufacturing process

APPLICATION

Applicable both dry and wet on smooth, coated and uncoated floor coverings.

AREA OF APPLICATION

For maintenance cleaning, basic cleaning as well as wet and dry cleaning of any surfaces, such as elastic coverings, hard coverings, porcelain stoneware, stone floors, tiles, laminate floors and ideally suited for smooth floor coverings. Particularly suitable for use in industry, production facilities, supermarkets as well as public facilities and building cleaning.

WASHING RECOMMENDATION

The recommended washing temperature is 60 °C. A maximum washing temperature of 90 °C should not be exceeded. The use of fabric softeners and bleaching agents should be avoided. In general, it is recommended to wash only single types of fabrics. When drying, 80 °C should not be exceeded.
